Brodie, 2020-02-28 Have you ever believed in your writing but frustrated by the traditional literary agents and other traditional publishing gatekeepers? To any writers reading this, I understand your frustration. That was until I took a leap of faith and decided to self-publish my first book. It was the best decision for my career as I have the freedom and the control of my writing career as never before. Taking the step towards self-publishing is not easy; you have to be an art director, editor, and marketer at the same time. I have made many mistakes and tested what works and what doesn't work. In this book, you will learn how to research a topic to write, how to format and edit your final copy in the most cost-effective way, learn to write a title and description that sells, how to create a paperback version of your book, getting reviews for your books, marketing and distributing your book, and much, much more. **Self-Publishing on Amazon 2020** Dr. Andy

Williams, 2020-01-24 I would never have attempted to publish my own books at any other time in our history. That's a bold statement. The thing is, the Kindle revolution has made it so easy that if you aspire to be a published author, now IS the time. Today, you don't have to send out hundreds of letters to publishers or agents. You don't have to receive hundreds of rejection letters back. Even if you do get a literary agent interested in your work, there are so many people involved in the decision to publish your book that there's no guarantee you'll get it in print. That's not even mentioning how your profits will be eaten away by the various people involved in the process. Each will take their cut. Today, you can write a book and self-publish it on Amazon for FREE, and ANYONE can do it. Not only that, but you can earn up to 70% royalties on your book sales. We are at a special time in history where opportunity really is knocking. My entire strategy for formatting, self-publishing, and promoting
