Fisher, William Nemos**

## **In Search Of Ancient North America:**

**In Search of Ancient North America** Heather Pringle, 1996-04-20 Almost unimaginably immense North America stretches from a few degrees short of the North Pole to a few degrees shy of the equator. Archaeologists are now racing to unravel the mysterious past of the forgotten peoples who once inhabited this sprawling land. In *In Search of Ancient North America*, Heather Pringle chronicles her journeys among the ancient sites of Canada and the United States. Her enthralling voyage of discovery uncovers the richness of now vanished cultures and illuminates the intriguing world of archaeology itself. Journeying from the mosquito-infested forests of the far north to the bleak deserts of the American Southwest, Pringle accompanies leading archaeologists and their crews into the field. At the Bluefish Caves in the northern Yukon, Jacques Cinq Mars chases down clues to an Ice Age mystery at the immense geometric riddle that is Hopewell Earthworks. Mark Lynott scours the countryside for vestiges of ancient village life in the thorny wilderness of the Lower Pecos. Solveig Turpin deciphers the enigmatic rock art painted more than 3,000 years ago. What emerges from Pringle's accounts are surprising portraits of long lost cultures: the rapacious mariners of southern California who nearly wiped out one of the world's most productive ecosystems; the wealthy nobles of British Columbia who wore salmon skin shoes and counted their wealth in bottles of salmon oil; the powerful lords of the Mississippi River who won the adoration of their followers with a mysterious medicinal tonic. Equally intriguing are the controversial new theories that the author presents on a host of subjects: from the origins of art and hallucinogenic drugs to the rise of private property, the identities of the earliest New World migrants, and the astonishing extent of trade in prehistoric North America. Complemented by superb color and black and white photographs, *In Search of Ancient North America* blends incisive science journalism with evocative travel writing to bring the latest archaeological findings and interpretations to light. Delving into the previously unmined saga of this vast continent's lost and extinct cultures, this captivating book is a thrilling invitation to endless discovery. Drawing on some of the latest archaeological research, Pringle's book is vivid, witty, and responsible in a field too often filled by cranks and bores. All who are curious about life in North America before the European invasion will find the book a stimulating introduction. Ronald Wright, author of *Stolen Continents*. *In Search of Ancient North America* brings the distant past much closer and its inhabitants almost become neighbors to us once again. A first-rate examination of the mystery and fascination of modern archaeological research in North America. Farley Mowat, author of *The People of the Deer*. Captures the essence of what archaeologists are learning about North American prehistory. The book is a pleasure to read and will inspire a new awareness of the importance of the history of North America prior to European contact. Bruce Trigger, author of *The Children of Aataentsic*. *The Archaeology of Ancient North America* Timothy R. Pauketat, Kenneth E. Sassaman, 2020-02-27 Unlike extant texts, this textbook treats pre-Columbian Native Americans as history makers who yet matter in our contemporary world. Early Native North Americans Don Nardo, 2008-06-09 It is an often overlooked and

understudied fact that America belonged to indigenous populations well before the new American government came to be. Native Americans have been living on the American continent since about 12 000 B C. They were a rich variety of cultures, peoples and languages. This book examines the history of early Native North Americans, providing readers with insight into past Indian civilizations, their origins and their plights when faced with settlers and shrinking resources. *A Land Imperiled* John Nolt, 2025-12-08. Cherokeees called the magnificent mountain range in eastern Tennessee land of the blue mist, which European settlers later changed to Smoky Mountains. Today the Great Smoky Mountains National Park is one of Southern Appalachia's leading tourist attractions. But that fabled blue mist isn't so blue or healthy any longer. Particularly in the summer months, the smoke of the Smokies is a haze of sulfate particles and other pollutants released by coal burning power plants, a mixture more likely to create dangerous ozone levels for visiting tourists than the invigorating mountain air so many come to seek. It is a story common throughout Southern Appalachia, one of America's most beautiful, biologically diverse and fragile bioregions. *A Land Imperiled* is a symptom by symptom look at the myriad of ecological issues threatening the health of the southern high country. Sections on air, water, plants and animals, food, energy, waste, transportation and population and urbanization make this the most comprehensive environmental study of Southern Appalachia to date, a much needed wake up call for anyone concerned about the region's natural legacy. But it is not just the future we have to worry about; the author asserts pollution, development and other forms of degradation are already affecting our quality of life. The excessively high ozone levels plaguing the Smokies have been connected to a host of respiratory problems, including chronic bronchitis and asthma. Once crystal streams are green and sluggish with runoff from agricultural wastes. Over half of the South's natural forests are gone, and a mere 2 percent of the remaining forests have protected status. The environment of Southern Appalachia is a collection of complex, interrelated systems that needs care and protection to function in full health. *A Land Imperiled* not only illustrates the many ways in which the health of this bioregion is being affected, but also provides examples of how the damage can be reversed to sustain ourselves and this natural treasure. The History of North America: The formation and development of the Constitution, by T.F. Moran. Guy Carleton Lee, F. N. Thorpe, 1904. **The Native Races of the Pacific States of North America: Wild tribes. 1874** Hubert Howe Bancroft, Henry Lebbeus Oak, Albert Goldschmidt, Walter Mulrea Fisher, William Nemos, 1874. Extensive anthropological, ethnographic, linguistic, archaeological and historical work on the Indians of the North Central and South Americas and in North America as far east as the Mississippi Valley. Daily Life in Pre-Columbian Native America Clarissa Confer, 2008. Draws on historical and archaeological research to describe what life was like in North America in the time before Columbus landed, exploring the people's religious beliefs, social structure, hunting, housing, food, dress and traditions. The Native Races of the Pacific States of North America Hubert Howe Bancroft, 1875.
