Authentic Achievement Restructuring Schools For Intellectual Quality:

Authentic Achievement Fred M. Newmann, 1996-10-28 This new book presents the findings of a five year federally funded study that examined the connection between school restructuring and student achievement Investigating twenty four elementary and secondary schools from twenty two districts across the country the researchers found that restructuring efforts fail when there is too much focus on structure and technique and not enough attention paid to the intellectual quality of student and teacher work and to the vitality of the school community Using a wealth of examples the authors provide a vivid picture of the conditions under which innovations in a school s organization contribute to student achievement extending learning beyond rote memorization of isolated facts to thinking disciplined understanding and complex communication

Mathematics Teachers in Transition Elizabeth Fennema, Barbara Scott Nelson, 2013-04-03 This book addresses the need of professional development leaders and policymakers for scholarly knowledge about influencing teachers to modify mathematical instruction to bring it more in alignment with the recommendations of the current reform movement initiated by the National Council of Teachers of Mathematics The book presents theoretical perspectives for studying analyzing and understanding teacher change descriptions of contextual variables to be considered as one studies and attempts to understand teacher change and descriptions of professional development programs that resulted in teacher change One chapter builds a rationale for looking to developmental psychology for guidance in constructing models of reconstructing new forms of mathematical instruction Another highlights the relevance to mathematics teacher development of research based knowledge about how children construct mathematical ideas Other chapters explore the relationships between the various contexts of schooling and instructional change Included also are chapters that describe and analyze major reform efforts designed to assist teachers in modifying their instructional practices Cognitively Guided Instruction Math Cubed Project Impact Mathematics in Context and the Case Based Project Finally the current state of knowledge about encouraging teachers to modify their instruction is discussed the implications of major research and implementation findings are suggested and some of the major questions that need to be addressed are identified such as what we have learned about teacher change
