Reference Sources Mary E. Bond,Martine M. Caron,1996 This bibliography cites those Canadian and foreign reference sources that describe Canadian people, institutions, organizations, publications, art, literature, languages, and history. It lists books of a general nature as well as works in the disciplines of history and the humanities. These large divisions are then broken down by subject, genre, type of document, and province or territory. Titles of national, provincial, territorial, or regional interest are included in every subject area when available. The contents of the book are indexed four ways by name, title, French subject, and English subject. And to facilitate browsing, the major reference books those dealing with more than one subject or a large geographical region are also cross-referenced. Two entries have been created for each bilingual document in order to provide access and bibliographical descriptions in both of Canada's official languages. Entries for unilingual works include citation in the language of the publication and a bilingual annotation. The annotations are descriptive and provide information on the content, arrangements, and indexing of works, the availability of non print formats, previous editions, and title changes, and related works. Canadian Reference Sources will be an invaluable reference tool for future scholars and researchers *Encyclopedia of Twentieth Century Architecture* R. Stephen Sennott,2004 For more information including the introduction, a full list of entries and contributors, a generous selection of sample pages, and more, visit the Encyclopedia of 20th Century Architecture website. Focusing on architecture from all regions of the world, this three volume set profiles the twentieth century's vast chronicle of architectural achievements both within and well beyond the theoretical confines of modernism. Unlike existing works, this encyclopedia examines the complexities of rapidly changing global conditions that have dispersed modern architectural types, movements, styles, and building practices across traditional geographic and cultural boundaries *ARLIS/NA Update* ,1993 **La rénovation des bâtiments** André Bergeron,Collège du Vieux Montréal,2000

Notions de base, planification des travaux, estimation des coûts d'un projet, problèmes particuliers et travaux divers pour y remédier sont tous expliqués et commentés. Faisant de ce livre un ouvrage de base en rénovation des bâtiments, il a été préparé d'abord pour servir dans les cours de rénovation et de recyclage des bâtiments, donnant ainsi l'orientation Technologie de l'architecture dans les cahiers du Québec SDM **Art Libraries Journal** ,1996 *Lieux de la Mémoire* Royal Society of Canada, Historic Sites and Monuments Board of Canada,1997 **Montreal** Annick Germain,Damaris Rose,2000-07-26 How did a small French missionary colony become a major pivot of the North American economy and the leading industrial and financial metropolis of Canada in the nineteenth century, dominated by a Victorian bourgeoisie only to see its role retrenched by the later twentieth century to one of a contested metropolis of the French speaking province of Québec? How does the city

today reconcile the many facets of its identity as French window on North America but also as a bilingual and increasingly multicultural metropolis How has a city seemingly allergic to urban planning managed to sustain even revitalize an animated and liveable urban core How can its economy exhibit an excellent performance in terms of conversion to high technology and knowledge based industries yet suffer from persistent high unemployment How can a city with such an extreme climate and long cold winter and that remains significantly divided between two cultural and linguistic majorities be so frequently ranked one of the world's most liveable cities The list of paradoxes characterizing Montréal is a long one The portrait that Annick Germain and Damaris Rose strive to paint of the intriguing city caught in the maelstrom of political debate that permeates most of its urban issues is both wide ranging and fine grained At the heart of this debate lies the National Question addressing Quebec's place vis-à-vis the Canadian federation Building on a vast array of recent research the authors themselves forming a team that reflects the bilingual bicultural character of Montréal explore the twists and turns of Montréal's perennial quest for an identity and a mission worthy of a metropolis
