Altus Cost Guide 2015:

Alberta John Church, Neale Smith, 2022-03-01 Alberta A Health System Profile provides the first detailed description of Alberta's health care system and the underpinning political and social forces that have shaped it. Drawing on significant wealth from government revenues generated through the energy sector, Alberta has been able to develop an extensive public health and health care infrastructure. Alberta has used its financial resources to attract health professionals by offering the highest levels of financial compensation in Canada. However, although it spends more per capita than other Canadian jurisdictions, Alberta's health care system costs and health outcomes are mediocre compared to those of many other Canadian jurisdictions. This unexpected outcome is the consequence of the unique interplay of economic and political forces within Alberta's political economy. Through an examination of Alberta's political and economic history and using research on the structures and services provided, Alberta A Health System Profile provides a detailed description of the programs and services that constitute Alberta's health care system.

Icebergs, Zombies, and the Ultra-Thin Matthew Soules, 2021-05-04 Soules's excellent book makes sense of the capitalist forces we all feel but cannot always name. Icebergs, Zombies, and the Ultra-Thin arms architects and the general public with an essential understanding of how capitalism makes property Required reading for those who think tomorrow can be different from today. Jack Self, coeditor of Real Estates Life Without Debt. In Icebergs, Zombies, and the Ultra-Thin, Matthew Soules issues an indictment of how finance capitalism dramatically alters not only architectural forms but also the very nature of our cities and societies. We rarely consider architecture to be an important factor in contemporary economic and political debates, yet sparsely occupied ultra-thin pencil towers develop in our cities, functioning as speculative wealth storage for the superrich, and cavernous iceberg homes extend architectural assets many stories below street level. Meanwhile, communities around the globe are blighted by zombie and ghost urbanism, marked by unoccupied neighborhoods and abandoned housing developments. Learn how the use of architecture as an investment tool has accelerated in recent years, heightening inequality and contributing to worldwide financial instability. See how investment imperatives shape what and how we build, changing the very structure of our communities. Delve into high profile projects like the luxury apartments of architect Rafael Viñoly's 432 Park Avenue. Understand the convergence of technology, finance, and spirituality, which together are configuring the financialized walls within which we eat, sleep, and work. Includes dozens of photos and drawings of architectural phenomena that have changed the way we live. Essential reading for anyone interested in architecture, design, economics, and understanding the way our world is formed.
