*Demystifying Artificial Intelligence* Emmanuel Gillain, 2024-07-22 This book is intended for business professionals that want to understand the fundamental concepts of Artificial Intelligence their applications and limitations Built as a collaborative effort between academia and the industry this book bridges the gap between theory and business application demystifying AI through fundamental concepts and industry examples The reader will find here an overview of the different AI techniques to search plan reason learn adapt understand and interact The book covers the two traditional paradigms in AI the statistical and data driven AI systems which learn and perform by ingesting millions of data points into machine learning algorithms and the consciously modelled AI systems known as symbolic AI systems which use explicit symbols to represent the world and make conclusions Rather than opposing those two paradigms the book will also show how those different fields can complement each other All royalties go to a charity Demystifying AI reveals its true power not as a mysterious force but as a tool for human progress accessible to all who seek to understand it Dr Barak Chizi Chief Data Analytics Officer KBC Group

**Reinventing the Organization** Arthur Yeung, Dave Ulrich, 2019-09-24 Your Company Isn't Fast Enough Here's How to Change That The traditional hierarchical organization is dead but what replaces it Numerous new models the agile organization the networked organization and holacracy to name a few have emerged but leaders need to know what really works How do you build an organization that is responsive to fast changing markets What kind of organization delivers both speed and scale and how do you lead it Arthur Yeung and Dave Ulrich provide leaders with a much needed blueprint for reinventing the organization Based on their in depth research at leading Chinese US and European firms such as Alibaba Amazon DiDi Facebook Google Huawei Supercell and Tencent and drawing from their synthesis of the latest organization research and practice Yeung and Ulrich explain how to build a new kind of organization a market oriented ecosystem that responds to changing market opportunities with speed and scale While

other books address individual pieces of the puzzle Reinventing the Organization offers a practical integrated six step framework and looks at all the decisions leaders need to make choosing the right strategies capabilities structure culture management tools and leadership to deliver radically greater value in fast moving markets For any leader eager to build a stronger more responsive organization and for all those in HR organizational development and consulting who will shape and deliver it this book provides a much needed roadmap for reinvention Controllable Artificial Intelligence and the Future of Law Hugo Luz dos Santos,2025-11-08 This book broaches the newly crafted concept of algorithmic dictatorship that draws on a plethora of human biases that creep into the algorithm and feeds into an automated decision that comes to the expense of citizens lives freedoms health property fair lending and credit scoring This book sheds a keen light on the slew of reasons in view of which artificial intelligence should be both interpretable and controllable as opposed to merely explainable The reason for that is straightforward the skewed data baked into the bigoted algorithms machine biases spawns harrowing effects with which criminal justice has been grappling for a long haul drawn out Tallyingly and perhaps unsurprisingly law enforcement evinces biases that run along both gender and race lines No surprise springs from the fact that computer generated algorithms that propel predictive policing are often flagged as tools whereby racial discrimination abounds It should not therefore be pegged as flabbergasting that this sort of shady algorithmic governance is a byproduct of a grueling algorithmic dictatorship that is shaping up to crumble the foundations of Rule of Law upon which stands modern societies This is one of the key takeaways of this book Disturbingly enough brain computer interfaces are poised to be converted into shady tools to collate gauge thoughts emotions sentiments and crime related information that would be otherwise inaccessible to the governments rogue nations or unscrupulous actors prying eyes Much to our dismay an eerily dystopian world is unfolding before our very eyes This is the gist of transhumanism a byproduct of convolutional neural networks that revolve around deep learning genetic algorithms that will overhaul the current legal landscape beyond recognition This book charts the path ahead as to draw set in stone boundaries to prevent jurisdictions from careening into the chaos of genetic plutocracy that should be wished away Tesla Carbon Pigs, Climate Change, Environmental Equity and Liberal Democracy Peter Thalheim,2023-08-28 Read how the typical TESLA electric vehicle driver is more affluent than the average citizen and consumes considerably more carbon to live their comfortable lives at their first or second home with their private clubs take out food household staff extensive vacations etc The vow of poverty to immediately aid our environment is not in the cards for these carbon pigs or for the rest of us for that matter Most of us fall short between our personal consumption habits and our public persona expressing concern for our environment Read how amazon prime is unsustainable at any speed of delivery as other delivery options albeit slower are already in your neighborhood Read about various strategies of solar wind hydrogen fusion efuels and others to ameliorate our stress on the environment living our comfortable and consumptive lifestyles which include cell phones laptops and social media We should do whatever we can for the environment provided it does not raise

the cost of living for the poor They should not bear the brunt of greenwashing the environmental conscience of our betters those with a higher net worth and or higher education degree than the rest of us Eliminating the United States economy from the world s ecosystem would have a negligible impact on preventing the rise in average global temperature of 1.5 degrees Celsius proposed by the Paris Climate Accord by the year 2100 yet the United States is imperative for the liberal democratic project of expanding the Rule of Law to more of our brother and sister citizens around the globe versus Rule of Man totalitarian regimes like China and Russia who care not for international rules and norms of conduct You decide
