**Television Drama from Germany** Florian Krauß, 2024-08-01 This open access book examines how TV professionals in Germany have negotiated quality TV drama from 2015 to the present. As practitioners have adapted quality TV a term most strongly associated with US series to their own national context they have simultaneously dealt with shifts in screenwriting and storytelling as well as with broader transformations of the local television industry. As in other European countries in Germany this has included a crucial upheaval the emergence of various streaming services which has multiplied the television market. As a systematic study of this changing fiction industry *Television Drama from Germany* will be of great interest to both academics and practitioners working both within and outside the German language television market.

With contributions from leading experts in the field the book first offers an overview of the industrial policy and cultural context for the renaissance of European television drama over the past decade based on original comparative research. This research is then supported by case study chapters from the key contexts within which quality European television is being produced offering a complex and complete picture of the industry's strengths and limitations its traditions and trends its constraints and future perspectives. *A European Television Fiction Renaissance* is a must read book for TV scholars working across Europe and beyond in the areas of media studies international communications and television studies media industries.
