MEMORANDUM FOR PARCs

SUBJECT: Army Source Selection Manual (ASSM)

The ASSM is approved and effective February 1, 2007. It supersedes the Army Source Selection Guide dated June 2001.

The ASSM is a comprehensive source selection resource which recites best practices that promote source selection flexibility and consistency in Army source selections. The ASSM is designed to provide a given framework so that contracting officers and other U.S. Army acquisition professionals can best execute source selection plans and requests for proposals to provide the optimum solution to the needs of their customers.

Source selection training must be provided to every source selection team to ensure all team members understand their respective roles and responsibilities during the source selection process. The Principal Assistant Responsible for Contracting is the responsible official for developing and overseeing the source selection training requirements tailored for his/her organization. It is my intent to measure improvements in source selections in one year as a result of the implementation and training provided to the acquisition community on the ASSM.

The Federal Acquisition Regulation and its supplements prescribe the general policies governing competitive, negotiated acquisitions. This ASSM will be incorporated as Appendix AA to the Army Federal Acquisition Regulation Supplement (AFARS) in the next AFARS revision.

The Deputy Assistant Secretary of the Army (Policy and Procurement) point of contact is Ms. Ann Scotti at (703) 604-7107, or e-mail: [ann.scotti@hqda.army.mil](mailto:ann.scotti@hqda.army.mil).

**International Handbook of Public Procurement** Khi V. Thai,2017-09-25 Since the 1990s government at all levels is under increasing pressure to do more with less However despite the U S government spending about 15 to 20 percent of its GDP on contracts for goods and services there is a paucity of reference books for public procurement officials and very few textbooks for courses on the subject Filling this void the International Handbook of Public Procurement provides the knowledge necessary to understand how procurement works and how to improve the cost effectiveness of procurement systems Taking a multidisciplinary approach the book focuses on the managerial economic political and legal aspects of this topic It begins with a conceptual framework and highlights various reforms occurring in certain countries By examining these improvements readers are able to apply this knowledge to their own strategies The next section presents selected cases that illustrate the public procurement process examining systems in various nations including Germany China South Africa Cambodia Uganda and Estonia The book also discusses the rise of electronic procurement systems E procurement and reviews the benefits of these efficient systems Other topics presented in this comprehensive volume include practical discussions on contract negotiations bidding price strategies and cost analysis and an insightful chapter on the market s response to contract award announcements A virtual encyclopedia from numerous international experts this book was assembled by Khi V Thai Professor at Florida Atlantic University and Editor of the Journal of Public Procurement Dr Thai has

**Past Performance in Source Selection, An Evaluation Guide** ARMY MATERIEL COMMAND ALEXANDRIA VA.,1993 This pamphlet describes an innovative way to evaluate contractor past performance during the source selection process The Army Materiel Command AMC contracting activities helped to develop test and implement this approach which results in smarter procurement decisions and better contracts The distinctive feature of this program is that it uses information that is outside of the offeror s proposals to evaluate past performance No longer must contracting activities rely solely upon the very contractors being evaluated for past performance information Now contracting officers can use independent sources of information to determine how well those contractors performed in the past A thorough evaluation of past performance identifies the relative performance risks associated with competing proposals and thereby serves to ensure that awards are made to good performers rather than to just good proposal writers AMC P 715 3 Vol 4 Past performance in source selection An evaluation guide Source selection Contracting *Guide to Federal Government Acronyms* William R.
