**Handbook of Research on Global Issues in Next-Generation Teacher Education** Keengwe, Jared, Mbae, Justus G., Onchwari, Grace, 2016-02-17 There is no question that all aspects of modern life have been imbued with technology. In education students are becoming increasingly savvy in their use of the myriad technologies and virtual tools and must be taught adequate complimentary skills to be effective in the 21st century workforce. To answer this call teachers education must reflect modern demands by integrating the use of these tools as part of their teaching practices. The Handbook of Research on Global Issues in Next Generation Teacher Education addresses this need with precise comprehensive research and case studies. With strategies and emerging research on the empowerment of tomorrow's inspirational educational leaders this handbook of research outlines the challenges, benefits and opportunities of engaging teachers with the 21st century skills their students require. Teachers, students of education, administrators and policy makers will find this publication offers a number of innovative solutions.

**Nursing Informatics 2014** Charlotte A. Weaver, Polun Chang, 2014-07-15 Standing as it does at the intersection of the information, computer, social and behavioral sciences and healthcare and dealing with the resources, devices and methods required to optimize the acquisition, storage, retrieval and use of information in health and biomedicine, nursing informatics is increasingly crucial in modern healthcare. This book presents selected papers from the Twelfth Nursing Informatics Congress NI2014 held in Taipei, Taiwan in June 2014 and entitled East meets West eSMART. The aim of the congress is to provide a single high profile, internationally renowned forum for research in the theory and practice of nursing informatics. The comprehensive scientific program focuses on mobile and web technologies with healthcare delivery applications as well as currently relevant core topics including patient safety and quality data information management, usability, meaningful use and educating for competencies.

Containing 68 papers selected from the 280 presentations by delegates from more than 30 countries, the book presents an overview of current research and practice which will be of interest to all those whose healthcare role involves the use of modern information technology.

*The Sage Handbook of Nursing Education* Carol Hall, Mary Gobbi, Kathryn Parker (Whitcomb), Patricia Yoder-Wise, 2024-05-01 In the past several years a revival of research devoted to nursing education has emerged. This emergence has changed the way many educators engage in their practice of working with learners and learners have come to expect that they will have a rich learning experience designed to develop new or enhance prior knowledge, skills and attitudes. The SAGE Handbook of Nursing Education provides a detailed map of the current discipline with a carefully selected team of international contributors offering the latest thinking about education in nursing across key areas. This handbook will be a key resource for academic educators as well as graduate and postgraduate learners.
