Statistics for Nursing Research - E-Book Susan K. Grove, Daisha J. Cipher, 2024-01-20 Get the review and practice you need to critically appraise the statistical methods used in published research. Statistics for Nursing Research 4th Edition helps you understand and interpret statistical methods sampling and measurement techniques and statistical analysis techniques. This unique and practical workbook is divided into two parts to differentiate between basic and advanced statistical methods with dozens of hands on exercises that will help you practice working with the statistical methods needed for building an evidence based practice. This workbook is an indispensable resource for any nursing student or practicing nurse wishing to gain competency in conducting statistical analyses. Comprehensive coverage of basic statistical methods includes extensive practice with the most common techniques of sampling measurement and statistical analysis seen in nursing and health sciences literature. Literature based approach uses key excerpts from published studies to reinforce learning through practical application. 38 sampling measurement and statistical analysis exercises provide a practical review of both basic and advanced statistical techniques. Study Questions in each chapter help you examine a statistical technique and apply concepts to an actual literature appraisal. Online submission of answers for Questions for Further Application allows you to complete exercises in a web based format and then submit completed exercises to your instructor via email for grading. Consistent format for all chapters enhances learning and enables quick review. NEW More than half of the research articles in Part 1 are new ensuring that exercises are based on the most current clinically applicable published studies. NEW Enhanced interactive online functionality of the Questions for Further Application for each chapter allows you to save your work and complete the exercises at a later time before submitting work to your instructor for grading. NEW Enhanced emphasis on diversity and inclusion features representation of diverse authors and research foci in selected published articles. NEW Two new exercises are added to this edition a unique Handling Missing Data exercise and a Calculating the Mann Whitney U Test exercise. NEW VST eBook version of this title is a fully interactive eBook for the first time. NEW Supplemental video tutorials by Dr Cipher on the Evolve website provide valuable reinforcement that is especially helpful for visual and auditory learners.

Annual Review of Nursing Education, Volume 4, 2006 Marilyn H. Oermann, PhD, RN, FAAN, 2005-12-12 Designated a Doody's Core Title. This is must reading for anyone teaching nursing at any level in any program or institution. Covers trends and innovative strategies to help you develop a curriculum and be more effective in using it. Educators describe problems such as students who cannot write or high NCLEX failure rates and how they tackled and solved them. Each chapter contains common sense approaches to every educator's questions. A resource no nursing education program can afford to be without.
