Century to the Present** Anne Chapman, Natalie Hume, 2021-05-10 An exploration of trends and cultures connected to  
electrical telegraphy and recent digital communications this collection emerges from the research project Scrambled  
Messages The Telegraphic Imaginary 1866 1900 which investigated cultural phenomena relating to the 1866 transatlantic  
telegraph It interrogates the ways in which society politics literature and art are imbricated with changing communications  
technologies from the mid nineteenth century to the present Contributors consider control imperialism and capital as well as  
utopianism and hope grappling with the ways in which human connections and their messages continue to be shaped by  
communications infrastructures      **Photography and Literature in the Twentieth Century** David Cunningham, Sas  
Mays, Andrew Fisher, 2009-01-14 Photography and Literature in the Twentieth Century offers an accessible and fresh  
approach to an object of interdisciplinary research that is currently receiving increased international attention Providing a  
broad historical schema and examining pivotal moments within it the collection brings together a range of writers and  
practitioners who help to guide the reader through a historical cross section of current work in this area Unlike most existing  
studies this volume considers both key literary figures from Proust to Sebald and photographic practitioners from Heartfield  
to Sekula in order to give a commanding overview of its subject that is both well informed and often ground breaking With  
original and accessible essays by acknowledged experts in the field this is a book that should be of interest not only to  
students and teachers in departments of literature and photography but also to those in cultural studies and art history as  
well as photographic artists      **Allan Sekula** , 1995      **Fish Story** Allan Sekula, Benjamin H.D. Buchloh, 1995      Industries

industry Contributors turn to historical and theoretical questions as well as to key contemporary developments taking a  
humanities approach to the Industries of Architecture that will be of interest to practitioners and industry professionals as  
much as to academic researchers teachers and students How has modern architecture responded to mass production How do  
we understand the necessarily social nature of production in the architectural office and on the building site And how is  
architecture entwined within wider fields of production and reproduction finance capital the spaces of regulation and  
management techniques What are the particular effects of techniques and technologies and above all their inter relations on  
those who labour in architecture the buildings they produce and the discursive frameworks we mobilise to understand them
