**Disadvantage**  
 The U.S. has a massive trade surplus, especially in government bonds, which is one of the reasons why the dollar is so strong. It also allows the U.S. to finance its current account deficit, but it also means that the U.S. is dependent on foreign investment to finance its deficit. This is a potential risk, as it could lead to a loss of confidence in the U.S. government and a sharp decline in the value of the dollar.
