**Language Practice for Advanced** Michael Vince, Macmillan Publishers, 2014    **Foreign Language Anxiety and the Advanced Language Learner** Zsuzsa Tóth, 2010-08-11  
Does anxiety about learning and using a foreign language decline as learners become more competent in the target language or is anxiety also relevant at higher levels of proficiency? This is the question. *Foreign Language Anxiety and the Advanced Language Learner* sets out to explore. The aim of the book is to give readers an insight into what role anxiety plays in the language learning and communication processes of advanced language learners. Specifically the study examines how advanced EFL learners' foreign language anxiety (FLA) can be characterized, how anxiety relates to other individual differences cognitive, affective, personality and explores the relationship between FLA and various aspects of learners' performance and communication experience in the target language. The research context is Hungary. The findings however are not confined to the Hungarian EFL setting. In addition to making a contribution to the clarification of some unresolved issues in language anxiety research including the role of proficiency in the development of anxiety, the relationship between anxiety and other learner variables and the much debated question of whether or not anxiety accounts for differential success in L2 learning, this study has important implications for language teachers as well.

**Practice** Michael Vince, 1994    **Language in Uniform** Helen de Silva Joyce, Elizabeth A. Thomson, 2015-02-27  
Language education and training are an important part of life for some men and women in uniform. Around the globe, police and military personnel are faced with language challenges in their domestic security duties including interaction with overseas tourists and community members who speak any number of languages. They are also often called upon to manage international roles that require an understanding of languages other than their own including participating in international policing initiatives and military deployments. *Language in Uniform: Language Analysis and Training for Defence and Policing Purposes* brings together a collection of papers that reflect the diverse work being done in the often overlooked Language for Specific Purposes (LSP) fields of defence, security and policing. As language learning is increasingly becoming an integral part of life in uniform, this volume extends the theoretical and practical understanding of LSP and acknowledges the ground breaking work

that has been and continues to be done with this approach in language teaching and assessment for defence security and law enforcement purposes    **Traveler's Information** Council on Student Travel (U.S.),1955    Journal of Reading ,1983
