Alexis Carrel, 1873-1944, Etc. [With Plates, Including Portraits, and a Bibliography]. Robert SOUPAULT, Alexis Carrel, 1952 **Collected Reprints of Alexis Carrel** Alexis Carrel, 1904 Collection of reprints of Alexis Carrel **Alexis Carrel** Kerry Raymond Bolton, 2010 *Catalogue des œuvres publiées par Alexis Carrel* Robert Soupault, 1972 *First Transplant Surgeon, The: The Flawed Genius Of Nobel Prize Winner, Alexis Carrel* David Hamilton, 2016-09-14 This is a new account of how in the early 1900s the French born surgeon Alexis Carrel 1873 1944 set the groundwork for the later success in human organ transplantation and gained America's first Nobel Prize in 1912 His other contributions were the first operations on the heart and the first cell culture methods He was prominent in military surgery in WW1 and in the 1930s gained further fame when collaborating with the aviator Charles Lindbergh on an organ perfusion pump But controversy followed his every move including concerns over scientific misconduct notably his claim to have obtained immortal heart cells now shown to be fraudulent In 1934 he authored a best selling book *Man the Unknown* based on his strongly held conservative spiritual political and eugenic views adding a belief in faith healing and parapsychology He settled in Paris in

WW2 under the German occupation believing that the conditions would allow him to refashion the degenerate Western civilization His extremist views re emerged in the 1990s when they proved interesting to right wing politicians and in a bizarre twist jihadist Islamists now laud his criticisms of the West **Alexis Carrel** David Le Vay,1996 *The Immortalists* David M. Friedman,2009-12-10 His historic career as an aviator made Charles Lindbergh one of the most famous men of the twentieth century the subject of best selling biographies and a hit movie as well as the inspiration for a dance step the Lindy Hop that he himself was too shy to try But for all the attention lavished on Lindbergh one story has remained untold until now his macabre scientific collaboration with Dr Alexis Carrel This oddest of couples one a brilliant Nobel Prize winning surgeon turned social engineer the other a failed dirt farmer turned hero of the skies joined forces in 1930 driven by a shared and secret dream to conquer death and attain immortality Part Frankenstein part The Professor and the Madman and all true The Immortalists is the remarkable story of how two men of prodigious achievement and equally large character flaws challenged nature s oldest rule with consequences personal professional and political that neither man anticipated **Alexis Carrel** Jacques Descotes,Dubernard,Dureau,Mikaeloff,Leriche,Lépine,Soupault,Cier,1966 *A History of Organ Transplantation* David Hamilton,2013-12-21 A History of Organ Transplantation is a comprehensive and ambitious exploration of transplant surgery which surprisingly is one of the longest continuous medical endeavors in history Moreover no other medical enterprise has had so many multiple interactions with other fields including biology ethics law government and technology Exploring the medical scientific and surgical events that led to modern transplant techniques Hamilton argues that progress in successful transplantation required a unique combination of multiple methods bold surgical empiricism and major immunological insights in order for surgeons to develop an understanding of the body s most complex and mysterious mechanisms Surgical progress was nonlinear sometimes reverting and sometimes significantly advancing through luck serendipity or helpful accidents of nature The first book of its kind A History of Organ Transplantation examines the evolution of surgical tissue replacement from classical times to the medieval period to the present day This well executed volume will be useful to undergraduates graduate students scholars surgeons and the general public Both Western and non Western experiences as well as folk practices are included **Doctors and Discoveries** John Simmons,2002 Traces the history of western medicine through the lives of its major contributors profiling such well known figures as Hippocrates and Louis Pasteur as well as lesser known scientists including Elle Metchnikoff and Samuel Hahnemann *Anesthesia for Renal Transplantation* Gwendolyn B. Graybar,Lois L. Bready,2012-12-06 This treatise commemorates the 32nd anniversary of the first successful allogenic kidney transplant in a human being and the beginning of a continuing challenge for well over a generation of anesthesiologists If comparisons can be permitted this epoch making event can be ranked with the first pulmonary lobectomy and subsequently the initial ligation of a patent ductus arteriosus in the late 1930s when thoracic and cardiac surgery began Was it merely a coincidence that brought these events to the fore so close upon one another after

many years of ideation and frustration Not so according to Lewis Thomas for this was the time of medicine s second revolution its transformation from an empirical art into a powerfully effective science The remote Galenic conception of disease with its emphasis on disturbed body humors was about to be supplanted by effective therapeutics as signified by the introduction of the sulfonamides and antibiotics for the specific treatment of infection Anesthesiology had been dormant up to that era still relying upon a few agents more or less utilized from the beginning and purveyed by a handful of specialists who had not yet begun to ask the scientific questions necessary for their maturation into a bona fide discipline However anesthesiology was inevitably caught in the ferment for as Peter Caws observed It serves to remind us that the development of science is a step wise process nobody starts from scratch and nobody gets very far ahead of the rest Alexis Carrel. (1873-1944). Robert Soupault,2022 Chirurgien et biologiste français Lauréat du prix Nobel de physiologie et de médecine en 1912 Alexis Carrel s est fait mondialement connaître par la publication de L Homme inconnu en 1935 Il se convertit au catholicisme et plaida notamment pour l eugénisme ainsi que pour une politique nataliste Il adhéra au Parti populaire français PPF de Jacques Doriot et en 1941 rencontra le Maréchal Pétain qui le nomma directeur de la Fondation française pour l étude des problèmes humains chargé de l étude sous tous ses aspects des mesures les plus propres à sauvegarder améliorer et développer la population française dans toutes ses activités La Fondation fonctionnant de manière autonome sans lien avec les autorités elle accueillait Collaborateurs et Résistants fut notamment l origine de la loi instaurant la médecine du travail le certificat matrimonial loi du 16 décembre 1942 et le livret scolaire Elle se livra des travaux sur la démographie sur la nutrition Jean Sutter sur l habitat et aux premières enquêtes par sondage En 1944 Carrel refusa le poste d ambassadeur de France à Berne invoquant sa santé déclinante Il fut suspendu de ses fonctions le 21 août 1944 tandis que la Fondation fut dissoute Après une grave attaque cardiaque il décéda en novembre de la même année **The Johns Hopkins University Circular** Johns Hopkins University,1911 Includes University catalogues President s report Financial report etc **Popular Eugenics** Susan Currell,Christina Cogdell,2006 In a series of revealing essays Popular Eugenics demonstrates that eugenic thought persisted in science and culture as well as in social policy and goes a long way toward explaining the durability of eugenic thinking and its effects on social policy in the United States *Savant mystique* Joseph Thomas Durkin,Alexis Carrel,1969 **Hope for Our Time** Joseph Thomas Durkin,Alexis Carrel,1965
