## **The Interethnic Stalemate in Romania: Origins and Risks**

**Abstract.** The accommodation of ethnic diversity has played an important role in the development of the Romanian political system following the fall of communism. The first decade of transition witnessed a sinuous path of interethnic relations between the Romanian majority and the Hungarian minority, from violent clashes and implementation of minority unfriendly legislation to minority inclusion in the national government. The second stage, associated with the efforts leading to Romania's Euro-Atlantic integration, brought a change in tactics from the Hungarian politicians. The author presents a general overview of how the political game between the Romanian state and the Hungarian minority developed in the last two decades and emphasises the legislative dimension of the disputes. The main argument of this article is that, although the interethnic relations have been normalised, the legal dispute is in a stalemate, which, if unresolved, threatens the current stability in the longer term.

### **Introduction**

The Romanian political system and the political mobilization of the Hungarian minority create a fertile ground on which to explore some of the most important theoretical expectations regarding political mobilization of ethnic minorities as such. Romania encompasses a Hungarian minority of approximately 6% of the population and includes a growing Roma population, officially considered to be at around 3% of the population however the exact size is still unaccounted for. In total, Romania officially recognizes 19 ethnic minorities,<sup>1</sup> offering a perfect context in which to study the interaction between a large ethnic majority – over 80% of the population is ethnic Romanian – and either small minorities with historical and cultural relevance or large minorities with strong political representation, claims, and ambitions. Two other factors increase Romania's relevance

## **Interethnic Relations In Postcommunist Romania:**

Interethnic Relations in Post-communist Romania Lucian Nastasă, Levente Salat, 2000      **Post-Communist Romania at Twenty-Five** Lavinia Stan, Diane Vancea, 2015-06-24 2014 marked the 25th anniversary of the collapse of communist regimes in Eastern Europe. The events of 1989 are widely seen as having ushered in new all encompassing reforms in almost all areas of life. In few other places were reforms more contested and divisive than in Romania, a country that suffered greatly under the sultanistic cum totalitarian dictatorship of Nicolae Ceausescu, faced the region's only bloody anti communist revolt and as such had the longest to travel on the road from communism to democracy. We now have a generation's worth of experience with these wrenching reforms that have deeply affected Romania's political institutions and political culture and ultimately allowed it to become a member of the coveted European Union club. This volume gathers key lessons for democratic theory and practice from Romania's first twenty five years of post communist transformation. Written by leading experts in the field of Romanian Studies, the chapters focus on the most important factors that have shaped the country's political transformation during the first 25 years of post communism.

**Transnational Catholicism in Post-Communist Europe** Timothy A. Byrnes, 2001-08-27 Through the use of three case studies: Poland, Croatia and the Slovak Republic, Timothy Byrnes argues that the Catholic Church remains deeply involved in the central politics of this vital region, over both governmental structure and public policy, deeply implicated for better or worse in the ethnic divisions that characterize the post communist era and profoundly part of the social fabric of virtually every state in East Central Europe.

Yet the Yugoslav tragedy remains the exception rather than the rule in understanding interethnic relations. This work analyzes post communist Romania and Slovakia, two multi ethnic countries that have steered clear of interethnic violence despite the absence of institutions specially designed to manage interethnic relations despite the exclusion of ethnic minorities from government and despite quasi majoritarian political environments. In the two studied cases, interethnic opposition coalitions resulted from the adoption of basic democratic political institutions which constrained actors across the ethnic divide to cooperate. More broadly, this work questions the notion that multiethnic countries are unlikely candidates for peaceful democratization and suggests that as long as participation in democratic processes, either in government or in opposition, is possible for ethnic minorities, violent conflict can be averted. The argument is of interest to both scholars of conflict and peace studies and to
