### UNIT 1

#### Urban Planning: Safe Cities

##### 1 Preview

###### Previewing the Academic Content

###### Exercise 1, page 2

suburban, urban, rural

###### Exercise 2, page 2

Victimization rates are going down in all areas: urban, suburban, and rural. The exception is violent crime rates in rural and suburban areas of the U.S., which show a slight increase.

Property crimes are highest in suburban areas and lowest in rural areas; violent crime rates are highest in urban areas and lowest in rural areas.

###### Exercise 3, page 3

1. Crime rates are higher in urban areas because there are more people in urban areas; there is more crowding and poverty.
2. Typical answers for not feeling safe in certain areas of a city may include the following: the areas are too crowded, too empty, too open, too enclosed, too narrow, too dark, etc.
3. To help lower crime rates, urban planners might: create spaces that can handle the number of people who will use them so that crowds of people don't get too tightly packed together (from housing to stadiums to parks); provide enough lighting; provide a mix of uses so that there are "eyes on the street."

###### Previewing the Academic Skills Focus

###### Exercise 1, page 3

1. The main point in this paragraph is that if a city is unsafe, it will fail. If a city is safe, it will be successful. Another important idea in the paragraph is that a city is composed of strangers.
2. Answers will vary.
3. People won't want to do business, socialize, go out, or participate in any cultural activities.
