This book embeds theoretical bases within practical explanations and examples advisors can use in answering fundamental questions such as: What will make me a more effective advisor? Linking theory with practice, Academic Advising Approaches provides an accessible reference useful to all who serve in an advising role. Based upon accepted theories within the social sciences and humanities, the approaches covered include those incorporating developmental learning, centered appreciative, proactive strengths-based, Socratic, and hermeneutic advising, as well as those featuring advising as teaching, motivational interviewing, self-authorship, and advising as coaching. All advocate relationship building as a means to encourage students to take charge of their own academic, personal, and professional progress.
