A Guide for Compliance with Grant Agreement Obligations to Provide Reasonable Access to an AIP-funded Public Use General Aviation Airport, 2015

Airport sponsors who receive a grant from the Federal Aviation Administration for an airport project are obligated to agree to a number of assurances

One of those assurances provides that the airport sponsor will make the airport available for public use on reasonable conditions and without undue discrimination

The intent of this assurance is to ensure that aeronautical users will have reasonable access to the airport

Airport sponsors can encounter issues under this grant assurance by limiting access to the airport directly or indirectly ranging from adopting express restrictions on particular aeronautical activities to less obvious actions to ensure safety security and economic sustainability such as enforcing airport rules and regulations and negotiating and enforcing lease and rental agreements airport fees and local laws

This digest describes the sponsor assurances and how they limit the airport sponsor from unreasonably restricting access for aeronautical activity at general aviation airports

Although focused on general aviation airports all airport sponsors will benefit from this guide

In Appendix A readers will find fact sheets that summarize the law on access issues as applied to specific activities

Appendix B is a practical Guide to Leasing Airport Property which contains best practices for lease and use agreements of airport property
