The featured case studies are: Building Bridges Closing the Divide between Minimally Processed Collections and Researchers; Managing Risk with a Virtual Reading Room; Two Born Digital Projects Improvements on a Shoestring; Changing Reference Systems and Processes; Twenty First Century Security in a Twentieth Century Space; Reviewing, Revising, and Implementing New Security Practices in the Reading Room; Talking in the Night Exploring Webchats to Serve New Audiences; A Small Shop Meets a Big Challenge Finding Creative Ways to Assist the Researchers of the Breath of Life Archival Institute for Indigenous Languages; The Right Tool at the Right Time Implementing Responsive Reproduction Policies and Procedures; Going Mobile Using iPads to Improve the Reading Room Experience; Beyond Trial by Fire Towards A More Active Approach to Training New Reference Staff; Access for All Making Your Archives Website Accessible for People with Disabilities; No Ship of Fools A Digital Humanities Collaboration to Enhance Access to Special Collections; Websites as a Digital Extension of Reference; Creating a Reference and IT Partnership for Web Usability Studies. Each of these case studies deconstructs reference and access services into their essential elements, interacting with people who have questions, providing access to materials that meet researcher needs, assisting researchers as they use materials, and managing the processes needed to support reference and access. The volume will be useful to those working in archives and special collections as well as other cultural heritage organizations and provides ideas ranging from the aspirational to the immediately implementable. It also provides students and educators in archives, library, and public history graduate programs a resource for understanding the issues driving change in the field today and the kinds of strategies archivists are using to meet these new challenges.
