Be Sure To See the New All-Steel McCormick-Deering

"This is the North Harvester. I have one and will have more next year. I consider her as light and she makes a good job of cleaning the grain."

W. J. FRAME,
Columbus, Ohio.

"What I say about the Deering is unimportant to me, but a thresher that can do the better work than the McCormick-Deering."

ROY SCHLEIBER,
Akron, No. Dak.

"I have been in threshermen for thirty years and have never used a Deering. I have purchased one and my customers many more than the McCormick-Deering."

C. L. MILEY,
Columbus, Ohio.

"Dear, I have threshed and harvested thousands of bushels, but this is the first time that I have ever got a Deering in."

MARK H. THOMPSON,
Bismarck, No. Dak.

"In every light, manner, every operation, in a general grain market, the McCormick-Deering is the best. The Deering Deering is a leader in a remarkable measure as it measures better for the customer."

J. H. BAKERBROOKER,
Marquette, Minn.

LAST year the new McCormick-Deering all-steel thresher made a wonderful record for itself. All the evidence gives assurance of the satisfaction ahead for McCormick-Deering owners and operators for this season. The letters shown here are typical of many scores we have received.

The McCormick-Deering ball-bearing cylinder does away with the old plain-bearing nuisances. Forget the hourly oiling, the daily inspection, the frequent adjustments. Oil once a day is enough for these ball bearings, and inspection and adjustment are rarely required.

We believe the McCormick-Deering all-steel machine embodies all the best principles masking for grain saving, economical operation and long life. It gives you simple, sturdy compactness without surplus investment in thresher or power. This thoroughly up-to-date machine, in one size or the other, is qualified to fill most any thresherman's needs. Coupled with the McCormick-Deering Tractor this makes a most practical outfit.

See the McCormick-Deering dealer and look the thresher over at your first opportunity. See its features, some of which are touched on here. Drop us a line and we will be glad to send you the new catalog.

All-Steel Construction—

Withstands the stresses of operation and weather. Stronger, more durable. For all practical purposes, stronger and more proof.

Ball-Bearing Cylinder—

Ends the old cylinder bearing trouble. McCormick-Deering thresher ball bearings are not affected by the natural factors that usually ruin plain bearings. One oiling is for nothing more needed.

4-Section Revolving Straw Rack—

This balanced, 4-section straw rack instead of weighing or vibrating out in an unsteady revolution. Greatly reduces vibration to threshing and the straw falls every smoothly. Straws are available and the life of the thresher extended.

The MODERN Thresher—All the Way Through—

Challenging competition with all others. This is the demand and the basis for the thresher by the McCormick Company. "The world's thresher" is demanded on the part of the market. McCormick's thresher has no equals in the world. These are illustrations to confirm for the purchase of straw and straw racks. The following paragraphs concerning all the straw and straw racks.
