summary based on the book *All the Light We Cannot See* by Anthony Doerr that is a National Book Award Finalist novel that offers a gripping tale of World War II and its aftermath. It is a book that is well worth the read when you have time to sit down and get lost within its pages. But for those of us that live hectic lives and want a quick read summary of this excellent well written novel then you will enjoy this summary of the book. In the novel the interwoven stories of the blind Marie Laure LeBlanc and the German orphan Werner Pfennig and others as they are brought into the conflict of the Second World War. The Sea of Flames Diamond is wrapped within the plot but not the focus with several characters connected to it. The events that take place are during the World War two era France and Germany. Pivotal action mainly takes place in St Malo a French town next to the English Channel historically this town was known for piracy in the Second World War it was bombed. When the bombing occurred this is where the temporal focus of the novel lies tying the observed reality to the text in a chronological setting this being an important factor when writing historical fiction. Making connections to real places and events helps to immerse us deeper into the narrative. This book does not use mighty prominent characters of the Second World War to focus on but instead it takes us to the small players showing that these people are indeed the backbone behind many a great leader and are the real power and strength of the countries they stand up and fight for.
