**Mobile Devices in Education: Breakthroughs in Research and Practice** Management Association, Information Resources, 2020-01-03 As technology advances mobile devices have become more affordable and useful to countries around the world. The use of technology can significantly enhance educational environments for students. It is imperative to study new software, hardware, and gadgets for the improvement of teaching and learning practices. *Mobile Devices in Education: Breakthroughs in Research and Practice* is a collection of innovative research on the methods and applications of mobile technologies in learning and explores best practices of mobile learning in educational settings. Highlighting a range of topics such as educational technologies, curriculum development, and game-based learning, this publication is an ideal reference source for teachers, principals, curriculum developers, educational software developers, instructional designers, administrators, researchers, professionals, upper-level students, academicians, and practitioners actively involved in the education field.

**Trends Shaping Education 2013** OECD, 2013-01-24 What does it mean for education that our societies are increasingly diverse? How is global economic power shifting towards new countries? In what ways are working patterns changing? *Trends Shaping Education 2013* brings together international evidence to address questions like these. *Information Systems: Development, Applications, Education* Stanislaw Wrycza, 2015-09-25 This book constitutes the refereed proceedings of the SIGSAND PLAIS EuroSymposium 2015 titled *Information Systems Development Applications Education* held in Gdansk, Poland in September 25. The objective of this symposium is to promote and develop high quality research on all issues related to systems analysis and design. It provides a forum for SAND researchers and practitioners in Europe and beyond to interact, collaborate, and develop their field. The 11 papers presented in this volume were carefully reviewed and selected from 28 submissions. They are organized in topical sections on information systems development, business process modeling, and information systems education.

**Human-Computer Interaction: Concepts, Methodologies, Tools, and Applications** Management Association, Information Resources, 2015-10-02 As modern technologies continue to develop and evolve, the ability of users to interface with new systems becomes a paramount concern. Research into new ways for humans to make use of advanced computers and other such technologies is necessary to fully realize the potential of 21st century tools. *Human Computer Interaction Concepts Methodologies Tools and Applications* gathers research on user interfaces for advanced technologies and how these interfaces can facilitate new developments in the fields of robotics, assistive technologies, and computational intelligence. This four-volume reference contains cutting-edge research for computer scientists, faculty, and students of robotics, digital science, and networked communications, and clinicians invested in assistive technologies. This seminal reference work includes chapters on topics pertaining to system usability, interactive design, mobile interfaces, virtual worlds, and more. *Mobile Learning in Higher Education in the Asia-Pacific Region* Angela Murphy, Helen Farley, Laurel Evelyn Dyson, Hazel Jones, 2017-07-06 If mobile technologies are to be effectively used in education, how do we

best implement sustainable mobile solutions for teaching and learning The aim of this handbook is to support educators and policy makers who are investing in innovations in digital education to develop effective and sustainable mobile learning solutions for higher education environments Authors from sixteen countries across the Asia Pacific region have collaborated to share their experiences with developing and implementing mobile learning initiatives These projects focus on a variety of aspects of mobile learning innovation from the trial adoption of existing social media platforms on mobile devices and the development of specialised applications or mobile learning systems to the large scale interuniversity implementation of technologies and pedagogies to support mobile learning Each chapter addresses challenges and solutions at one or more levels of mobile learning innovation within the education system encompassing the student perspective the educator perspective technical processes policies and organisational strategy and leadership The book also offers a unique perspective on the integration of mobile learning innovations within the educational political and cultural environments of Asia Pacific countries
