Peterson, 1994      *The Routledge International Handbook of Forensic Intelligence and Criminology* Quentin Rossy, David Décary-Héту, Olivier Delémont, Massimiliano Mulone, 2017-12-06 Despite a shared focus on crime and its extended family forensic scientists and criminologists tend to work in isolation rather than sharing the data methods and knowledge that will broaden the understanding of the criminal phenomenon and its related subjects Bringing together perspectives from international experts this book explores the intersection between criminology and forensic science and considers how knowledge from both fields can contribute to a better understanding of crime and offer new directions in theory and methodology This handbook is divided into three parts Part I explores the epistemological and historical components of criminology and forensic science focusing on their scientific and social origins Part II considers how collaboration between these disciplines can bring about a better understanding of the organizations and institutions that react to crime including the court intelligence prevention crime scene investigation and policing Part III discusses the phenomena and actors that produce crime including a reflection on the methodological issues challenges and rewards regarding the sharing of these two disciplines The objective of this handbook is to stimulate a new interdisciplinary take on the study of crime to show how both forensic and criminological theories and knowledge can be combined to analyse crime problems and to open new methodological perspectives It will be essential reading for students and researchers engaged with forensic science criminology criminal behaviour criminal investigation crime analysis and criminal justice

Propaganda, War Crimes Trials and International Law Predrag Dojcinovic, 2013-03-01 First Published in 2012 Propaganda War Crimes Trials and International Law addresses the emerging jurisprudence and international law concerning propaganda in war crimes investigations and trials The role of propaganda in the perpetration of atrocities has emerged as a central theme in the war crimes trials in the past century The Nuremburg trials initially and the International Criminal Tribunal for the former Yugoslavia and the International Criminal Tribunal for Rwanda currently have all

substantially contributed to the development of international law in this respect Investigating and exploring the areas between lawful and unlawful propaganda they have dealt with specific mechanisms and consequences of the phenomenon within the perspective and framework of their international legal mandates But the cultural codes and argots through which propaganda operates have vexed international courts struggling to assign responsibility to the instigators of mass crimes as subtle but potentially fatal communications often remain undetected misinterpreted or even dismissed as entirely irrelevant With contributions from leading international scholars and legal practitioners Propaganda War Crimes Trials and International Law pursues a comparative approach to this problem providing an overview of the current state of the theory of propaganda in the social sciences exploring this theory in the legal analysis of war crimes and related proceedings and finally offering a study of the prosecution of propaganda related crimes in international law and the newly emerging jurisprudence of war crimes propaganda cases Handbook of the Shapley Value Encarnación Algaba,Vito Fragnelli,Joaquín
