Applied Kinesiology and Biomechanics Clayne R. Jensen, Gordon W. Schultz, Blauer L. Bangerter, 1983 **Applied Kinesiology, Revised Edition** Robert Frost, Ph.D., 2013-08-20 This update of the bestselling book on Applied Kinesiology introduces a diagnostic method that uses manual muscle testing to assess the body's structure, chemistry, and psyche. Manual muscle testing is a standard medical diagnostic technique that utilizes full strength contraction of the muscle tested. An Applied Kinesiology (AK) muscle test uses this method to not only assess the general integrity of the muscle but to also reveal structural, chemical, and mental weaknesses. To perform an AK muscle test, the practitioner applies light pressure that the client then resists. If the client cannot resist the pressure, the muscle tests weak, indicating a structural problem or imbalance that needs to be resolved. Further applications include working with a muscle that tests strong in the clear as a diagnostic tool to determine the effect of stimuli including touch, nutrients, medicines, allergens, emotions, poor posture, and stressful memories. Opening with a detailed description of the history and applications of Applied Kinesiology, this book covers the theory, procedure, and interpretation of the muscle test, including diagnosis and correction techniques for areas of weakness. Thirty-three muscle tests for different areas of the body are accompanied by instructive photographs with superimposed anatomical drawings that demonstrate the method and various treatment points. A useful appendix includes a glossary of anatomical terms and special vocabulary, a step-by-step plan for conducting a session, and a list of contacts and sources for Applied Kinesiology materials. Offering a new preface and additional techniques in the areas of manual medicine, orthomolecular medicine, and psychology, *Applied Kinesiology Revised Edition* shares the author's discoveries as well as anecdotal observations to stimulate further research.

7 Element Lifeforce Healing is an eclectic healing practice that fuses ancient Taoist thought with modern alternative energy practices. The difference between this healing concept and many others is that the 7 Element Lifeforce Healing concept balances and fixes weaknesses, blockages, and miscommunications of the Lifeforce. What is the Lifeforce, you ask? The Lifeforce is the underlying super-intelligent energy that runs your body. To understand how it works, we

must first ask the question what runs your body Most of you would say the brain and you would be partially right The brain does magnificent things It uses the nervous system and the endocrine system to balance body levels and maintain homeostasis However even the brain does not have the capacity to run seventy trillion cells perfectly and simultaneously Your liver produces over fifty thousand biochemicals and does over thirteen thousand biochemical reactions to the perfect micro milliliter Your body right now is doing hundreds of thousands of chemical and physical reactions simultaneously to the perfect amount No matter how sophisticated your brain is it does not have that capacity So what is really running your body To answer that question let us take a simple flower as an example We have all seen a flower grow around an obstacle turn and face its petals to the sun How does it do that It has no brain no nervous system and no muscles How does it know what to do All living organisms have an all knowing Lifeforce energy It is your Lifeforce that directs the physical tissue of your body to perfect function A prime example of this is the body s intestinal flora There have been many recent medical studies about the balance of the bacteria flora of the intestines and the overall health of a person What keeps the trillions of bacteria in line doing good things for the body A few hours after death if the body is out in the sun it will swell and stink The same bacteria that were doing positive things for the body when it was alive are now eating apart the body in death Without the Lifeforce to direct and control the bacteria it runs rampant There was a very recent one hundred seventy three million dollar study funded by the National Institute of Health and included two hundred eighty top scientists from eighty research institutions around the world The final result of this enormous scientific study was that healthy human beings coexist with at least ten thousand different species of dangerous and pathogenic microbes bacteria viruses fungus etc The study goes on to postulate and I quote It turns out that everybody harbors low levels of bacteria and other pathogens that are known for causing specific infections and diseases but when a person is healthy those bugs quietly coexist with benign or helpful microbes perhaps being kept in check by them Or perhaps kept in check by their balanced and fully functioning Lifeforce Lifeforce is who you are and it is the all intelligent energy behind the wondrous function of the body If your Lifeforce is balanced then the body will function to full capacity Using Applied Kinesiology the I Ching 7 Element Crystal concept and thirty years of experience I can detect imbalances in the Lifeforce energy To date we have had great success in treating and healing many difficult cases Our best results have been with allergy elimination Through 7 Element Lifeforce Healing I have been able to eliminate environmental and food allergies even serious peanut allergies without drugs not by blocking the symptoms but by alleviating the cause which is Lifeforce imbalance
