**(In)Tolerance** R. Ruard Ganzevoort,Srdjan Sremac,2017-03-08 This volume explores the ways in which lived religion encourages and contributes to conflicts as well as fosters tolerance in the interlocking rural urban and virtual social spheres Through ten case studies with vast geographical and religious variation the contributors address some of the shortcomings in analyses of the relationship between religion and in tolerance and offers a theoretically and empirically more nuanced understanding of the micro politics of in tolerance and the roles of lived religion in it The book argues that in tolerance and its connection to religion cannot be fully understood unless analyzed from below which means that the focus needs to be not only on public institutions or religio political spaces but also on in tolerance of ordinary people and their performativity practices and interests in non institutionalized spaces This showcases the ambiguous interconnectedness of lived religion and in tolerance Lived Religion and the Politics of In Tolerance will be of interest to students and scholars interested in lived religion the relationship between politics and religion and those working in cross cultural dialogue and through an anti racism and anti violence lens
