**Beyond Vision** Allan Jones, 2018-06-06 In this unique and exhilarating autobiography Allan Jones Canada's first blind diplomat vividly describes how an untreatable eye disease slowly decimated his visual world most challengingly during his postings in Tokyo and New Delhi and how he discovered and took to heart the revelatory Indian philosophy that changed his life Advaita Vedanta the most iconoclastic and liberating of the classical Indian philosophies profoundly altered the author's experience of self and world He found that the true self as distinct from the individual ego far exceeds the boundaries of individuality It lies beneath sightedness or blindness and is absolutely unaffected by the latter This welcome shift of perspective was reinforced by startling discoveries in contemporary physics evolutionary biology and developmental psychology that are fully consistent with Advaitic metaphysics As for the practical applications of metaphysics this book demonstrates step by step how Advaitic insight and practice significantly reduce physical and psychological tension The most telling examples have to do with adjustments compelled by extreme circumstances Thus Jones describes how he drew upon Advaitic mindfulness techniques to maintain his white cane mobility skills in the teeth of permanent spinal nerve and muscle pain The arc of Beyond Vision moves from the claustrophobically personal to the openness of the transpersonal It begins in a dysfunctional family background breaking out into a full life encompassing an adventurous foreign service career spiritual exploration and an unconventional kind of marital love

**Beyond Vision** Pavel Florensky, 2006-08-15 Beyond Vision is the first English language collection of essays on art by Pavel Florensky 1882 1937 Russian philosopher priest linguist scientist mathematician and art historian In addition to seven essays by Florensky the book includes a biographical introduction and an examination of Florensky's contribution as an art historian by Nicoletta Misler Beyond Vision reveals Florensky's fundamental attitudes to the vital questions of construction composition chronology function and destination in the fields of painting sculpture and design His reputation as a theologian and philosopher is already established in the English speaking world but this first collection in English of his art essays translated by Wendy Salmond will be a revelation to those in the field Pavel Florensky was a true polymath trained in mathematics and philosophy at Moscow University he rejected a scholarship in advanced mathematics in order to study theology at the Moscow Theological Academy He was also an expert linguist scientist and art historian A victim of the Soviet government's animosity towards religion he was condemned to a Siberian labor camp in 1933 where he continued his work under increasingly difficult circumstances He was executed in 1937

**Race Beyond Vision** Márcio N. de Abreu, 2026-01-05 This book shows how racial perception goes beyond the limits of sight Drawing on Semiotic Cultural

Psychology it challenges the dominant visuocentric paradigm that equates race with visually apprehended phenotypic traits Through an in depth case study of a congenitally blind individual the author demonstrates that racial distinctions are not self evident to the senses but emerge through socially mediated symbolic and affective processes Integrating insights from psychology sociology anthropology philosophy and disability studies the volume explores how race operates as a dynamic culturally constructed sign within intersubjective relations It critically revisits Brazilian racial classification systems affirmative action controversies and heteroidentification procedures exposing the contradictions between race as a social construct and the visual essentialism embedded in current practices The book advances a theoretical framework that reconceptualizes racial identity as a dimension of body image biopsychosocial historically situated and affectively charged Combining rigorous theoretical analysis with qualitative methodology Race Beyond Vision A Semiotic Cultural Study of Racial Perception and Blindness contributes to debates on race perception and embodiment by revealing how blind individuals participate fully in the social construction of race It will appeal to scholars and graduate students in cultural psychology critical race studies semiotics and disability studies as well as researchers interested in epistemology and qualitative inquiry
