

FORCES AND MOTION

READING COMPREHENSION WORKSHEET

1. If an object with the correct weight is placed on the scale, what will the scale read? A. The weight of the object. B. The weight of the object plus the weight of the scale. C. The weight of the object plus the weight of the table. D. The mass of the object. E. The mass of the object plus the mass of the table. 2. If a book is placed on a table, the book is in a state of A. Rest. B. Motion. C. Acceleration. D. Deceleration. E. Motion and acceleration. 3. When an object moves from one place to another, it is said to have been given A. Rest. B. Motion. C. Acceleration. D. Deceleration. E. Motion and acceleration. 4. When an object moves from one place to another, it is said to have been given A. Rest. B. Motion. C. Acceleration. D. Deceleration. E. Motion and acceleration. 5. When an object moves from one place to another, it is said to have been given A. Rest. B. Motion. C. Acceleration. D. Deceleration. E. Motion and acceleration. 6. When an object moves from one place to another, it is said to have been given A. Rest. B. Motion. C. Acceleration. D. Deceleration. E. Motion and acceleration. 7. When an object moves from one place to another, it is said to have been given A. Rest. B. Motion. C. Acceleration. D. Deceleration. E. Motion and acceleration. 8. When an object moves from one place to another, it is said to have been given A. Rest. B. Motion. C. Acceleration. D. Deceleration. E. Motion and acceleration. 9. When an object moves from one place to another, it is said to have been given A. Rest. B. Motion. C. Acceleration. D. Deceleration. E. Motion and acceleration. 10. When an object moves from one place to another, it is said to have been given A. Rest. B. Motion. C. Acceleration. D. Deceleration. E. Motion and acceleration.	11. Which of the following is an example of a force? A. The weight of the object. B. The mass of the object. C. The distance between the object and the table. D. The distance between the object and the floor. E. The distance between the object and the wall. 12. Which of the following is an example of a force? A. The weight of the object. B. The mass of the object. C. The distance between the object and the table. D. The distance between the object and the floor. E. The distance between the object and the wall. 13. Which of the following is an example of a force? A. The weight of the object. B. The mass of the object. C. The distance between the object and the table. D. The distance between the object and the floor. E. The distance between the object and the wall. 14. Which of the following is an example of a force? A. The weight of the object. B. The mass of the object. C. The distance between the object and the table. D. The distance between the object and the floor. E. The distance between the object and the wall. 15. Which of the following is an example of a force? A. The weight of the object. B. The mass of the object. C. The distance between the object and the table. D. The distance between the object and the floor. E. The distance between the object and the wall. 16. Which of the following is an example of a force? A. The weight of the object. B. The mass of the object. C. The distance between the object and the table. D. The distance between the object and the floor. E. The distance between the object and the wall.	17. Which of the following is an example of a force? A. The weight of the object. B. The mass of the object. C. The distance between the object and the table. D. The distance between the object and the floor. E. The distance between the object and the wall. 18. Which of the following is an example of a force? A. The weight of the object. B. The mass of the object. C. The distance between the object and the table. D. The distance between the object and the floor. E. The distance between the object and the wall. 19. Which of the following is an example of a force? A. The weight of the object. B. The mass of the object. C. The distance between the object and the table. D. The distance between the object and the floor. E. The distance between the object and the wall. 20. Which of the following is an example of a force? A. The weight of the object. B. The mass of the object. C. The distance between the object and the table. D. The distance between the object and the floor. E. The distance between the object and the wall.	<p>Forces and Motion</p> <p>Read the passage carefully before answering the questions that follow.</p> <p>Forces are pushes and pulls that cause objects to move or change their motion. When objects move or change their motion, it is because forces are acting on them. These forces can be pushes or pulls. For example, when you push a box across a floor, you are applying a pushing force to the box. When you pull a box across a floor, you are applying a pulling force to the box.</p> <p>Friction is a force that resists motion. It is a force that acts on an object that is moving or trying to move. Friction is caused by the surfaces that an object is in contact with. For example, when you walk on a sidewalk, friction is the force that keeps you from sliding. Friction is also the force that keeps your car from sliding when you stop.</p> <p>Newton's first law of motion states that an object at rest stays at rest and an object in motion stays in motion with the same speed and in the same direction unless acted upon by an unbalanced force. This law is also known as the law of inertia. For example, if you are sitting in a car and the car suddenly stops, you will continue to move forward because of inertia. This is because the car's motion was suddenly stopped, but you were not.</p> <p>Newton's second law of motion states that the acceleration of an object depends on the net force applied to it and the mass of the object. The greater the mass of an object, the greater the force needed to accelerate it. For example, if you push a heavy object with a small amount of force, it will not move. If you push the same object with a larger amount of force, it will move. This is because the object's mass is greater, so it requires more force to move it.</p> <p>Newton's third law of motion states that for every action, there is an equal and opposite reaction. This means that when you push on an object, the object pushes back on you with the same amount of force. For example, when you push a chair, the chair pushes back on you with the same amount of force.</p> <p>1. Which of the following is an example of a force? A. The weight of the object. B. The mass of the object. C. The distance between the object and the table. D. The distance between the object and the floor. E. The distance between the object and the wall. 2. Which of the following is an example of a force? A. The weight of the object. B. The mass of the object. C. The distance between the object and the table. D. The distance between the object and the floor. E. The distance between the object and the wall. 3. Which of the following is an example of a force? A. The weight of the object. B. The mass of the object. C. The distance between the object and the table. D. The distance between the object and the floor. E. The distance between the object and the wall. 4. Which of the following is an example of a force? A. The weight of the object. B. The mass of the object. C. The distance between the object and the table. D. The distance between the object and the floor. E. The distance between the object and the wall. 5. Which of the following is an example of a force? A. The weight of the object. B. The mass of the object. C. The distance between the object and the table. D. The distance between the object and the floor. E. The distance between the object and the wall.</p>

Discovering Science Through

Inquiry: Forces and Motion Kit Kelli Allen, 2009-11-10 The Discovering Science through Inquiry series provides teachers and students of grades 3-8 with direction for hands-on science exploration around particular science topics and focuses. The series follows the 5E model: engage, explore, explain, elaborate, evaluate. The Forces and Motion kit provides a complete inquiry model to explore the laws of motion through supported investigation. Watch as students design a safe landing parachute to observe how the forces of deceleration work on parachutes. Forces and Motion kit includes 16 Inquiry Cards in print and digital formats, Teacher's Guide, Inquiry Handbook. Each kit includes a single copy; additional copies can be ordered. Digital resources include PDFs of activities and additional teacher resources including images and assessment tools, leveled background pages for students, and video clips to support both students and teachers.

[Class 4 Science MCQ \(Multiple Choice Questions\)](#) ARSHAD IQBAL, The Class 4 Science Multiple Choice Questions MCQ Quiz with Answers PDF 4th Grade Science MCQ PDF Download Quiz Questions Chapter 1-17 Practice Tests with Answer Key Science Questions Bank MCQs Notes includes revision guide for problem solving with hundreds of solved MCQs. Class 4 Science MCQ with Answers PDF book covers basic concepts, analytical and practical assessment tests. Class 4 Science MCQ PDF book helps to practice test questions from exam prep notes. The Class 4 Science MCQs with Answers PDF eBook includes revision guide with verbal, quantitative and analytical past papers solved MCQs. Class 4 Science Multiple Choice Questions and Answers MCQs PDF Free download chapter 1 a book covers solved quiz questions and answers on chapters A balanced diet, air and water, earth, force and machines, fossils, growth and movement in living things, heat, light, living things and their environment, magnet and magnetism, matter and its states, matter and its states, rocks and soil, sound, static electricity, understanding our bodies, water cycle, weather worksheets with revision guide. Grade 4 Quiz Questions and Answers PDF free download eBook's sample covers beginner's solved questions, textbook's study notes to practice online tests. The book Grade 4 Science MCQs Chapter 1-17 PDF includes primary school question papers to review practice tests for exams. Class 4 Science Multiple Choice Questions MCQ with Answers PDF digital edition eBook a study guide with textbook chapters, tests for NEET Jobs Entry Level competitive exam 4th Grade Science Mock Tests Chapter 1-17 eBook covers problem solving exam tests from science.

The book delves into Science Review Forces Section Answer Key. Science Review Forces Section Answer Key is a vital topic that needs to be grasped by everyone, from students and scholars to the general public. The book will furnish comprehensive and in-depth insights into Science Review Forces Section Answer Key, encompassing both the fundamentals and more intricate discussions.

1. This book is structured into several chapters, namely:
 - Chapter 1: Introduction to Science Review Forces Section Answer Key
 - Chapter 2: Essential Elements of Science Review Forces Section Answer Key
 - Chapter 3: Science Review Forces Section Answer Key in Everyday Life
 - Chapter 4: Science Review Forces Section Answer Key in Specific Contexts
 - Chapter 5: Conclusion
2. In chapter 1, this book will provide an overview of Science Review Forces Section Answer Key. This chapter will explore what Science Review Forces Section Answer Key is, why Science Review Forces Section Answer Key is vital, and how to effectively learn about Science Review Forces Section Answer Key.
3. In chapter 2, this book will delve into the foundational concepts of Science Review Forces Section Answer Key. This chapter will elucidate the essential principles that must be understood to grasp Science Review Forces Section Answer Key in its entirety.
4. In chapter 3, the author will examine the practical applications of Science Review Forces Section Answer Key in daily life. This chapter will showcase real-world examples of how Science Review Forces Section Answer Key can be effectively utilized in everyday scenarios.
5. In chapter 4, this book will scrutinize the relevance of Science Review Forces Section Answer Key in specific contexts. This chapter will explore how Science Review Forces Section Answer Key is applied in specialized fields, such as education, business, and technology.
6. In chapter 5, this book will draw a conclusion about Science Review Forces Section Answer Key. This chapter will summarize the key points that have been discussed throughout the book.

The book is crafted in an easy-to-understand language and is complemented by engaging illustrations. This book is highly recommended for anyone seeking to gain a comprehensive understanding of Science Review Forces Section Answer Key.
