Honey And The Hemlock Democracy And Paranoia In Ancient Athens And Modern America:

The Honey And The Hemlock Eli Sagan, 1991-11-05 Democracy is a miracle Eli Sagan writes considering human psychological disabilities To shed light on this miracle Sagan focuses on the world's first democratic society Athens and mounts a compelling argument that Athens and the modern American republic although separated by more than two thousand years share the same fundamental moral and psychological dilemmas Athens was a paradoxical society Sagan maintains Obedient to the rule of law concerned with social justice remarkably tolerant it displayed an unprecedented psychological maturity Yet at the same time it was an imperialist state capable of genocidal action against other Greek states that rested on the labor of thousands of slaves and treated women as political and social pariahs The Honey and the Hemlock probes this profound mystery exploring the intimate connection between political paranoia and a society's capacity or incapacity for democratic behavior Sagan offers provocative observations drawn from the Athenian and American experience about the rule of elites the political psychology of war and imperialism the boundaries of social justice and the roles of gain honor and wisdom as ruling political passions A cautionary tale of ancient Greece and the ongoing struggle for democracy today The Honey and the Hemlock is a fascinating account of the struggle between the rational and irrational in our public life

Violence and Community Ioannis K. Xydopoulos, Kostas Vlassopoulos, Eleni Tounta, 2017-04-21 Violence and community were intimately linked in the ancient world While various aspects of violence have been long studied on their own warfare revolution murder theft piracy there has been little effort so far to study violence as a unified field and explore its role in community formation This volume aims to construct such an agenda by exploring the historiography of the study of violence in antiquity and highlighting a number of important paradoxes of ancient violence It explores the forceful nexus between wealth power and the passions by focusing on three major aspects that link violence and community the attempts of

communities to regulate and canalise violence through law the constitutive role of violence in communal identities and the ways in which communities dealt with violence in regards to private and public space landscapes and territories The contributions to this volume range widely in both time and space temporally they cover the full span from the archaic to the Roman imperial period while spatially they extend from Athens and Sparta through Crete Arcadia and Macedonia to Egypt and Israel

Exporting 'Made in America' Democracy Colin S. Cavell, 2002-12-28 Exporting Made In America Democracy examines the various contradictory tensions that democracy promotion produces in the context of an increasingly capitalist globalization of the world that has accelerated in the post Cold War period and into the 21st century According to the author the Cold War between the U S and the Soviet Union 1945 1991 brought the question of democracy to the forefront of modern political debate and the subsequent collapse of the Soviet

model was in part a consequence of the U S projection of its own capitalist democracy as a model to be exported and emulated throughout the world Cavell argues the promise of democracy as an Enlightenment ideal has been to transcend the dichotomy of ruler and ruled by establishing self rule of the people themselves as the normative basis of governance in the modern world To the contrary the U S National Endowment for Democracy NED is promoting a market oriented democracy benefiting corporate interests which enhance U S economic and political hegemony *Polis* ,2001 *America, History and Life* ,1993 Provides historical coverage of the United States and Canada from prehistory to the present Includes information abstracted from over 2 000 journals published worldwide *Life in Ancient Athens* Don Nardo,2000 Discusses life in ancient Athens including the growth of the city state and its government religious beliefs festivals customs athletic games and sports the visual arts and the involvement of Athens in war on land and sea
