Caractéristiques des maisons de Fès

Caractéristiques des maisons de Marrakech

Larchitecture De Terre Au Maroc

Brahim Afatach

L'architecture De Terre Au Maroc:

L'architecture de terre au Maroc Selma Zerhouni, Hubert Guillaud, 2001 Si les pueblos des Indiens Anasazis et Hopis du Nouveau Mexique et d'Arizona furent l'origine des architectures bâties en terre seule ce sont les ksour et les kasbas des vallées du Dra et du Dades dans le Sud marocain qui ont confirmé la renaissance de la construction en terre pour l'habitat et influé sur la conservation des patrimoines en terre crue. Leur histoire est ici racontée. **Le Sud Marocain** Samuel Pickens, Michel Renaudeau, Xavier Richer, 1993 Offers a beautiful tour of this fascinating area illustrated with maps and color photos throughout.

L'architecture en terre crue au sud du Maroc (La vallée du Dra) Brahim Afatach, 1986 *Historical Dictionary of Morocco* Thomas K. Park, Aomar Boum, 2006-01-16 The Kingdom of Morocco achieved its independence in 1956 after over 40 years as a French protectorate. Since its independence it has further expanded its area of control by reclaiming the formerly international city of Tangier as well as annexing Western Sahara from Spain in the 1970s. In 1777 Morocco became the first nation to recognize the United States and the Moroccan American Treaty of Friendship of 1783 is the oldest unbroken friendship treaty with the US. Morocco of the past and present are covered in this second edition of the *Historical Dictionary of Morocco*. A comprehensive introduction focusing on its history provides a helpful synopsis of the kingdom and is supplemented with a useful chronology of major events. Hundreds of cross-referenced dictionary entries on former rulers, current leaders, ancient capitals, significant locations, influential institutions, and crucial aspects of the economy, society, culture, and religion form the core of the book. A bibliography of sources is included to promote further more specialized study.

Architectures of the Roman World Niccolò Mugnai, 2023-12-07 This book collects essays by international scholars who engage with Roman period architecture outside Rome and the Italian Peninsula looking at the regions that formed part of the Roman Empire over a broad time frame from the second century BCE to the third century CE. Moving beyond traditional views of Roman provincial architecture the aim is to highlight the multi-faceted features of these architectures, their function, impact and significance within the local cultures and the dynamic discourse between periphery and center. Architecture is intended in the broad sense of the term encompassing the buildings, technological components as well as their ornamental and epigraphic apparatuses. The geographic framework under examination is a broad one along with well-documented areas of the ancient Mediterranean. Attention is also paid to the territories of north west Europe. The discussion throughout the volume focuses on three interrelated themes: models, agency and reception. The broader scope of these essays is to give a reinvigorated impetus to the scholarly debate on the role and influence of ancient architectures beyond the center of Empire. The book has a strong interdisciplinary character which reflects the authors' diverse expertise in the fields of archaeology, architecture, ancient history, art and architectural history. L'architecture de terre dans le Maroc antique Maurice Lenoir, 1999 **Earthen Architecture in Muslim Cultures** Stéphane Pradines, 2018-09-11 This edited volume follows the panel Earth in Islamic Architecture organised for the World Congress for Middle Eastern Studies.

WOCMES in Ankara on the 19th of August 2014 Earthen architecture is well known among archaeologists and anthropologists whose work extends from Central Asia to Spain including Africa However little collective attention has been paid to earthen architecture within Muslim cultures This book endeavours to share knowledge and methods of different disciplines such as history anthropology archaeology and architecture Its objective is to establish a link between historical and archaeological studies given that Muslim cultures cannot be dissociated from social history Contributors Marinella Arena Mounia Chekhab Abudaya Christian Darles Fran ois Xavier Fauvelle Elizabeth Golden Moritz Kinzel Rolando Melo da Rosa Atri Hatef Naiemi Bertrand Poissonnier St phane Pradines Paola Raffa and Paul D Wordsworth **Index Islamicus** ,2006
