70 Sharp Swords:

70 Sharp Swords Leo Byrne, 2014-10-13 70 Sharp Swords is a collection of seventy daily devotionals that are loaded with spiritual truth apologetics and logical reasoning. They will certainly equip the Christian to slice through any battle and at the same time touch the heart and feed the spirit. It's a much needed dose of daily medicine for the believer's mind. Take empowerment. This book will really help you to stand firm in the truth and keep going in a world full of deceit, insecurity, and fatal denial. Leo Byrne recounts some of his realistic experiences and together with the Holy Spirit presents them to you in a way that motivates, strengthens, and refreshes.

Medieval Islamic Swords and Swordmaking Brian Gilmour, Robert Hoyland, 2012-05-30 One of the problems pervading the study of medieval Islamic technology is the lack of surviving technical treatises Tradition tended to be handed down by example and by word of mouth and apprenticeships could last for decades Fortunately however occasional treatises do exist The treatise *On swords and their kind* was written by the 9th century Muslim philosopher Ya'qub ibn Ishaq al Kindi This work was commissioned by a powerful patron of scholarship the Abbasid caliph Mu'tasim and the content of the treatise presumably reflects the ruler's general interest in his army and its equipment and his specific interest in the technical aspects of sword production In this work Kindi discusses the difference between iron and steel distinguishes different qualities of sword blade and different centres of swordsmithing He refers to the Indian Ocean trade in steel ingots and to the distinctive character of European swords of the period He includes technical terms used by the makers and distinguishes swords by their physical features form measurements weight watered pattern sculptured details or inlaid ornaments This publication includes the text and a translation of Kindi's treatise and a detailed commentary on the work The volume also includes a translation of Friedrich Schwarzlose's work on swords which is based on the hundreds of references to swords in early Arabic poetry Written in German this extraordinary compendium of information was first published some 120 years ago this volume makes it available again and for the first time in English
