

Answer #20

Topic: General Internal Medicine

Subtopic: ENT

Correct Answer: Choice E (Amoxicillin)

There are three main types of ear infections:

- **Acute otitis media (AOM):** Usually painful with common presenting symptoms of fever and redness of eardrum. Treatment is typically with antibiotics.
- **Otitis media effusion (OME):** Occurs as a result of buildup of fluid in the middle ear and generally will not present with symptoms of an acute infection. This is generally not a painful condition and will usually not benefit from antibiotic treatment. The infection typically goes away on its own.
- **Otitis externa:** This is an infection of the ear and/or outer ear canal. It is more commonly known as swimmer's ear. Symptoms include itching, pain and redness around the ear. Treatment is typically with antibiotics.

From the patient's history and physical exam, he likely has acute otitis media . On physical exam, an erythematous, bulging tympanic membrane is seen. As this patient doesn't have any known drug allergies, the best treatment is Choice E (Amoxicillin).

Let's go over the incorrect answer choices:

- **Choice A** (Ciprofloxacin) is usually not recommended for the treatment of otitis media.
- **Choice B** (Cephalosporins) and **Choice C** (Macrolides) can be used if patients have a penicillin allergy.
- **Choice D** (Polymyxin) would be used for otitis externa or swimmer's ear.

MBLEx Practice Questions are the simplest way to prepare for the MBLEx test. Practice is an essential part of preparing for a test and improving a test taker's chance of success. The best way to practice taking a test is by going through lots of practice test questions. If someone has never taken a practice test, then they are unprepared for the types of questions and answer choices that they will encounter on the official test. There is a tremendous advantage to someone taking the test that is already familiar with the questions and answer choices. Another advantage of taking practice tests is that you can assess your

performance and see if you need to study and practice more or if you're already prepared enough to achieve success on your test day. If you do well on the practice test then you know you're prepared. If you struggle on the practice test then you know you may still have more work to do to get prepared. Taking lots of practice tests helps ensure that you are not surprised or disappointed on your test day. Our MBLEX Practice Questions give you the opportunity to test your knowledge on a set of questions. You can know everything that is going to be covered on the test and it will not do you any good on test day if you have not had a chance to practice. Repetition is a key to success and using practice test questions allows you to reinforce your strengths and improve your weaknesses. Detailed answer explanations are also included for each question. It may sound obvious but you have to know which questions you missed and more importantly why you missed them to be able to avoid making the same mistakes again when you take the real test. That's why our MBLEX Practice Questions include answer keys with detailed answer explanations. These in-depth answer explanations will allow you to better understand any questions that were difficult for you or that you needed more help to understand.
