All English Accents Matter Pierre Wilbert Orelus, 2023-04-28 Orelus's valuable study draws on the scholarly work of sociocultural and postcolonial theorists as well as testimonies collected from study participants to explore accentism the systemic form of discrimination against speakers whose accents deviate from a socially constructed norm Orelus examines the manner in which accents are acquired and the effects of such acquisition on the learning and educational experiences of linguistically and culturally diverse students He goes on to demonstrate the ways and the degree to which factors such as race class and country of origin are connected with nonstandard accent based discrimination Finally this book proposes alternative ways to challenge and counter the accentism that minority groups including linguistically and culturally diverse groups have faced in schools and in society at large It will be of interest to all of those concerned with linguistic accent based prejudice and the experience of those who face it
