## **And Musical Instruments Highlights Metropolitan Museum:**

**Musical Instruments** J. Kenneth Moore, Jayson Kerr Dobney, E Bradley Strachen-Scherer, 2015-10-13 This insightful appreciation of musical instruments features more than one hundred extraordinary pieces from the Metropolitan Museum's collection. Whether created to entertain a royal court, provide personal solace, or aid in rites and rituals, these instruments fully demonstrate music's universal resonance and the ingenuity various cultures have deployed for musical expression. The results are astoundingly diverse, from Bronze Age cymbals and sistras to violins made by Stradivari, monumental slit drums from Oceania, and iconic twentieth-century American guitars. Stunning new photographs and a lively text reveal these objects to be works of both musical and visual art, as well as marvels of technology and masterpieces of design. Depictions of instruments and music-making, paintings, statues, and pottery further illuminate the narrative, providing a vivid counterpoint to these remarkable objects. *An Illustrated Dictionary for the Modern Trombone, Tuba, and Euphonium Player* Douglas Yeo, 2021-10-28 Modern low brass instruments, trombone, tuba, and euphonium, have legions of ancestors, cousins, and descendants in over five hundred years of history. Prominent scholar and performer Douglas Yeo provides a unique, accessible reference guide that addresses a broad range of relevant topics and brings these instruments to life with clear explanations and the most up-to-date research. Brief biographies of many path-changing individuals highlight their influence on instrument development and use. The book's inclusive scope also recognizes the work of diverse influential artists whose important contributions to trombone and tuba history and development have not previously been acknowledged in other literature. Extensive illustrations by Lennie Peterson provide insight into many of the entries. **Proceedings of the XI International Congress of Egyptologists, Florence, Italy 23-30 August 2015** Gloria Rosati, M. Cristina Guidotti, 2017-10-18 Presents proceedings from the eleventh International Congress of Egyptologists, which took place at the Florence Egyptian Museum, Museo Egizio, Firenze, Italy, from 23-30 August 2015. *Tanbûr Long-Necked Lutes along the Silk Road and beyond* Hans de Zeeuw, 2019-03-11 This book is divided into two main parts. The Tanbûr Tradition discusses the origin, history, construction, and playing techniques of tanbûrs. The Tanbûr Family focusses on long-necked lutes as a family of musical instruments. After a short introduction, the construction, playing technique, and musical traditions are discussed. *The Ottoman Tanbûr* Hans de Zeeuw, 2022-06-09 Tanbûrs are long-necked lute-like instruments played in the art, Sema, and folk musical traditions along the Silk Road and beyond. This book provides a detailed study of the history of the tanbûr, its role in Ottoman music, construction, and playing technique. **Our Tuneful Heritage** Laurence Libin, 1994-01 This catalog highlights over sixty American musical instruments, most drawn from the collection at The Metropolitan Museum of Art. Each instrument, whether toy or masterpiece, offers us much more than just sound. Through their varied forms and functions, each embodies some meaningful aspect of American life: immigration, acculturation, nationalism, and warfare; handicraft and industry; entertainment and worship; tradition and innovation. These instruments have evolved to serve complex social purposes that continue to change.
