

From past the day of my birth
These pens pass by my slight
Lore the letters to see
And many hours I spend to let
These words their inspiration
Take I will of creation
These feel the love that where the
Galaxy to make you to see
And in the Galaxy I stand
Under I stand with a glad heart
The last a before creation
Of good fortune and of good health
And a friend for life the high
Name the will be my life
And for my greatest full gladness
With passage of the water flow
And great for both when you come
Place of power will be
With fresh for me for
And you the same day come
Every distance may go the
The other side from the happy
Glad we may be other joyous

The Idea of the Book in the Middle Ages Jesse Gellrich,2019-03-15 This book assess the relationship of literature to various other cultural forms in the Middle Ages Jesse M Gellrich uses the insights of such thinkers as Levi Strauss Foucault Barthes and Derrida to explore the continuity of medieval ideas about speaking writing and texts **Chaucer's Monk's Tale and Nun's Priest's Tale**

Peter Goodall,2009-02-21 Of all the stories that comprise The Canterbury Tales certain ones have attracted more attention than others in terms of literary scholarship and canonization The Monk's Tale for instance was popular in the decades after Chaucer's death but has since suffered critical neglect particularly in the twentieth century The opposite has occurred with the Nun's Priest's Tale which has long been one of the most popular and widely discussed of the tales cited by some critics as the most essentially Chaucerian of them all This annotated bibliography is a record of all editions translations and scholarship written on The Monk's Tale and the Nun's Priest's Tale in the twentieth century with a view to revisiting the former and creating a comprehensive scholarly view of the latter A detailed introduction summarizes all extant writings on the two tales and their relationship to each other giving a sense of the complexity of Chaucer's seminal work and the unique function of its component stories By dealing with these two tales in particular this bibliography suggests the complicated critical reception and history of The Canterbury Tales

Anglo-Scottish Literary Relations 1430-1550 G. C. Kratzmann,1980 This book is a study of Anglo Scottish literary relations in the later Middle Ages and early Renaissance It attempts to show how those poets who have frequently been called Scottish Chaucerians James I Henryson Dunbar and Douglas drew upon English writing In the best Middle Scots poetry we see an order of invention and technical mastery that is comparable with that of Chaucer's work and this is sometimes accompanied by shrewd commentary on Chaucer's art Evidence of such an independent and critical view of Chaucer is strikingly absent in contemporary English poetry and the book accounts for some of the differences between Northern and Southern poetry in the later Middle Ages Above all this study reveals that the poetry of the fifteenth and early sixteenth century in Scotland is a rich and extremely varied body of literature ranging from the carefully wrought philosophical comedy of The Kingis Quair to the tragic grandeur of Henryson's The Testament of Cresseid from the pointed satires and grotesqueries of Dunbar to Douglas vigorous and sensitive translation of the Aeneid
