## **Book Recommendations:**

*The Best Book Recommendations* Isabel Throckner, 2021-01-25 Book Clubs are great A Book Club serves many useful purposes First and most importantly it gives you access to credible information on titles that you might be interested in reading from people whose opinion you are likely to trust Second it is a great social tool a way to meet and interact with people who share a very prominent interest with you that of a shared respect for great works of literature Finally it also helps you populate your to read list and make sure that you always have a recommendation stored away in the back of your mind for a rainy day However in the times in which we live physical Book Clubs are not always accessible The Modern Day Book Clubs This book fills the void within its pages you can find book recommendations of three kinds If you are a casual reader you might want to start with the chapters that are dedicated to popular literature both fiction and non fiction If you are a more seasoned book aficionado and are looking for some deep cuts the chapters dedicated to obscure books are a great way to get started Finally the last chapter of this book is dedicated to wild card recommendations you can dip into it at any time and discover a book that might be a critics dream or an audience's pick a mammoth volume filled with dense meaning and allegory or a quick read that spent weeks and years on book lists everywhere but that might not have scored as highly with critics as the others elsewhere on this list In this volume you are given fortnightly book recommendations to tide you through an entire year Every book title comes with three important pieces of data the name of the author the year of publication and an average reader rating out of 100 These three are all you need to discover a potentially new great book this is all about exploration I've made sure to give you more book recommendations for a fortnight than you can possibly finish reading this way you can use this book reading list year after year and become a true bibliophile Each book listed here has a rating out of 100 This is tallied from millions of other reader ratings and is an accurate assessment of how much you can expect to enjoy the book Each fortnight's recommendation set has a fairly large number of books in it depending on how much free time you have you might choose to read 1/3 of those books Two more pieces of information can help you shortlist the books you want to read in a given fortnight First I have added the suggested number of hours that I took to read each book in the list This does not necessarily mean that a big number of hours corresponds to a really long book I sometimes re-read a short book many times if it's really profound Remember your mileage may vary Finally for those of you that are into Numerology I have added a metric on the Lucky Number associated with each book I calculated that from the number of pages in my copy it took forever If your lucky number matches with a book in the list it might just be a sign from the heavens Happy Reading

*The Most Diverse Recommended Reading List: 3400 Books That Will Delight and Thrill You* Isabel Throckmorton, 2021-07-30 Book Clubs are Always Welcome A good recommendation is the best kind of gift to give someone Through a book list recommendation you open the eyes of the recipient to an entirely new world and give them hours and days of mental pleasure This book is dedicated to a well curated selection of books that billions of people have read enjoyed and shared over the past two millennia and over the past 25 centuries No matter what your taste is you will find that there is something to your liking Book clubs are not yet back to pre 2020 activity levels This book will fill that void at least till things are back to normal again Welcome to your very own Virtual Book Club We look for recommendations for music restaurants outfitts the list is endless However asking for book recommendations trumps all the others A good book recommendation takes into account multiple factors the time period in which a book is set is very important The average rating of a book with other readers is almost as crucial because the critics rating doesn t always reflect entertainment value which is a key thing that casual readers most of us look for Book genres are surprisingly not very crucial to the process of discovering new authors and new pieces of literature In this volume you are given fortnightly book recommendations to tide you through an entire year Every book title comes with three important pieces of data the name of the author the year of publication and an average reader rating out of 100 These three are all you

need to discover a potentially new great book this is all about exploration I ve made sure to give you more book recommendations for a fortnight than you can possibly finish reading this way you can use this book reading list year after year and become a true bibliophile Have fun     **A Writer's Eye: Collected Book Reviews** Welty, Eudora, 1994 Although she is eminent primarily as the prize winning author of classic works of fiction Eudora Welty is notable also as an astute literary critic Her essays on the art of fiction and on the writers who enlarged the range of the short story and the novel are definitive pieces Her distinguished book reviews along with her critical essays augment her reputation for being one of the most discerning author critics in literary America This collection of her book reviews manifests the connecting of her penetrating eye with her responsive intellect in forming sympathetic judgments of the books she reviewed Between 1942 and 1984 Welty wrote sixty seven reviews of seventy four books Fifty eight of these appeared in the New York Times Book Review and others in the Saturday Review of Literature Tomorrow the Hudson Review the New York Post and the Sewanee Review The reviewed books include novels short story collections books of essays biographies and memoirs books of letters children s books books of ghost stories photography books books of literary criticism and books of World War II art Over nearly half a century she reviewed books by some of the foremost authors of her time Virginia Woolf William Faulkner V S Pritchett Colette Isak Dinesen E B White E M Forster J D Salinger Ross Macdonald Patrick White S J Perelman Annie Dillard Elizabeth Bowen and Katherine Anne Porter A Writer s Eye includes all of Welty s book reviews even one published in the New York Times Book Review under the pseudonym Michael Ravenna Sixteen of the reviews were collected previously in Welty s *The Eye of the Story* 1978 In this collection Pearl Amelia McHaney s introduction records the history of Welty s career in book reviewing and illuminates the honesty and compassion with which Welty wrote reviews Welty s keen vision her wit and her refined style make these monuments to interruption a phrase she wrote in description of Virginia Woolf s essays and reviews an important record of her literary standards and special interests They show as well how book reviewing consumed a large measure of creative time that she customarily devoted to fiction writing Placed beside her authoritative critical essays this volume enhances Welty s considerable literary stature and completes the image of Eudora Welty as a consummate woman of letters
