## **Aiding Violence Aiding Violence:**

**Aiding Violence** Peter Uvin,1998 Includes statistics      **Aiding Violence Or Building Peace?** Jonathan Goodhand,2002      *War and Conflict in Africa* Paul D. Williams,2013-04-26 After the Cold War Africa earned the dubious distinction of being the world's most bloody continent. But how can we explain this proliferation of armed conflicts? What caused them and what were their main characteristics? And what did the world's governments do to stop them? In this fully revised and updated second edition of his popular text Paul Williams offers an in-depth and wide-ranging assessment of more than six hundred armed conflicts which took place in Africa from 1990 to the present day, from the continental catastrophe in the Great Lakes region to the sprawling conflicts across the Sahel and the web of wars in the Horn of Africa. Taking a broad comparative approach to examine the political contexts in which these wars occurred, he explores the major patterns of organized violence, the key ingredients that provoked them and the major international responses undertaken to deliver lasting peace. Part I Contexts provides an overview of the most important attempts to measure the number, scale and location of Africa's armed conflicts and provides a conceptual and political sketch of the terrain of struggle upon which these wars were waged. Part II Ingredients analyses the role of five widely debated features of Africa's wars: the dynamics of neopatrimonial systems of governance, the construction and manipulation of ethnic identities, questions of sovereignty and self-determination, as well as the impact of natural resources and religion. Part III Responses discusses four major international reactions to Africa's wars: attempts to build a new institutional architecture to help promote peace and security on the continent; this architecture's two main policy instruments, peacemaking initiatives and peace operations; and efforts to develop the continent. *War and Conflict in Africa* will be essential reading for all students of international peace and security studies as well as Africa's international relations.

**De Gruyter Handbook of Media and Social Change in the Global South** Kehbuma Langmia,2025-12-15 The birth of the newspapers, radio and television in the 19th century brought various interconnected social, behavioral and cultural changes in the lives of the colonizer and the colonized in the economically developing nations. Then, in the 20th century and now in the 21st century, the birth of digital media for political, social, cultural and economic communications have witnessed divergent results in the West and the non-Western countries. The Global South is currently facing digital divides and issues related to media illiteracy that tend to impact people's lives more than those in the North. Furthermore, a significant shift in online and offline communicative behavior has had various effects in the way the young and the old, male and female, the haves and the have-nots interact in the media space. This handbook brings together a multidisciplinary group of authors from the Global South and the diaspora to document, examine, expose and critically assess the nature, role and impact of the social changes brought by the emergence of the mediated forms of communication in the Global South. This remarkable volume is a must-have resource for anyone interested in communication and social change and development and social change in the Global South.

[Aiding and Abetting](#) Jessica Trisko Darden,2019-12-24 The United

States is the world's leading foreign aid donor. Yet there has been little inquiry into how such assistance affects the politics and societies of recipient nations. Drawing on four decades of data on U.S. economic and military aid, *Aiding and Abetting* explores whether foreign aid does more harm than good. Jessica Trisko Darden challenges long-standing ideas about aid and its consequences and highlights key patterns in the relationship between assistance and violence. She persuasively demonstrates that many of the foreign aid policy challenges the U.S. faced in the Cold War era such as the propping up of dictators friendly to U.S. interests remain salient today. Historical case studies of Indonesia, El Salvador, and South Korea illustrate how aid can uphold human freedoms or propagate human rights abuses. *Aiding and Abetting* encourages both advocates and critics of foreign assistance to reconsider its political and social consequences by focusing international aid efforts on the expansion of human freedom.

**Reimagining Global Health** Paul Farmer, Jim Yong Kim, Arthur Kleinman, Matthew Basilico, 2013-09-07

Bringing together the experience, perspective and expertise of Paul Farmer, Jim Yong Kim and Arthur Kleinman, *Reimagining Global Health* provides an original, compelling introduction to the field of global health. Drawn from a Harvard course developed by their student, Matthew Basilico, this work provides an accessible and engaging framework for the study of global health. Insisting on an approach that is historically deep and geographically broad, the authors underline the importance of a transdisciplinary approach and offer a highly readable distillation of several historical and ethnographic perspectives of contemporary global health problems. The case studies presented throughout *Reimagining Global Health* bring together ethnographic, theoretical and historical perspectives into a wholly new and exciting investigation of global health. The interdisciplinary approach outlined in this text should prove useful not only in schools of public health, nursing and medicine but also in undergraduate and graduate classes in anthropology, sociology, political economy and history among others.

*Post-conflict Reconstruction and Local Government* Paul Jackson, Gareth Wall, 2020-06-09

The subject of local government and post-conflict reconstruction sits at the intersection of several interrelated research areas, notably conflict, peacebuilding, governance and political economy. This volume addresses a gap in the academic literature whilst decentralisation is frequently included in peace agreements, the actual scope and role of local government is far less frequently discussed. This gap remains despite a considerable literature on local government in developing countries more generally, particularly with regard to decentralisation, but also despite a considerable and growing literature on post-conflict reconstruction. This volume provides a mixture of case study, cross-case studies, practitioner reflection and conceptual material on the function of local government in the context of decentralisation in post-conflict countries from both academics and policy makers. This collection of in-depth single and multi-country case study analysis is complemented by practitioner reflections and framed within the 2030 Agenda, building on the New Urban Agenda and particularly the Sustainable Development Goal 16 to promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels. The chapters in this

book were originally published in the online journal Third World Thematics

**Partner to the Poor** Paul Farmer, 2010 Dr Paul Farmer is one of the most extraordinary people I've ever known. Partner to the Poor recounts his relentless efforts to eradicate disease, humanize health care, alleviate poverty and increase opportunity and empowerment in the developing world. It will inspire us all to do our parts. William J. Clinton If the world is curious about Paul Farmer, there is a reason for that. No one has done more than he has in bringing modern medicine to the poor across the globe and no one has exceeded him in making us appreciate the diverse barriers that prevent proper medicine from reaching the underdogs of the world. In this wonderful collection of essays, putting together Paul Farmer's writings over more than two decades, we can see how his far-reaching ideas have developed and radically enhanced the understanding of the challenges faced by healthcare in the uneven world in which we live. This is an altogether outstanding book. Amartya Sen Nobel Laureate Economics To delve into these pages is to join one of the world's great explorers on an epic life journey to grapple with culture, poverty, disease, health care, ethics and ultimately our common humanity in the Age of AIDS. Paul Farmer is a pioneer, guide and inspiration at a time of unprecedented contrasts between wealth and poverty, power and powerlessness, health and disease, compassion and neglect. His medical expertise, anthropological vision and unflinching decency have helped to recharge our world with moral purpose.

Jeffrey D. Sachs Columbia University Wow! Perfect for teaching. This is more than vintage Farmer. Editor Haun Saussy knows Farmer's work inside out and has assembled and organized 25 classic articles that project the heart of Farmer's brilliant, radical, inspiring, eminently practical and dare I say genuinely subversive work. Philippe Bourgois author of Righteous Dopefiend If they gave Nobel Prizes for raising moral awareness, Paul Farmer would have won his a long time ago. For several decades now, his work has posed a challenge to anyone who dares say that radically improving the health of the world's poor can't be done. This splendid compilation of the best of his work allows us to follow a restless, creative, compassionate mind in action, in and out of prisons and barrios and mud huts and hospital wards from Haiti to Rwanda to Moscow, never taking no for an answer. Adam Hochschild author of Bury the Chains Paul Farmer is a deep scholar of Haitian society, a formidable medical anthropologist, an implacable theorist of structural violence and health as a human right, and an ethicist for whom the place of social justice in medicine and in the world is an existential need. This book is the platform of interconnected, intellectual, academic and practical engagements upon which the amazing world-transforming life of Farmer stands. Arthur Kleinman author of What Really Matters: Living a Moral Life amidst Uncertainty and Danger This collection shows the impressive catalytic effects of original scholarship when combined with action, activism and a commitment to social justice in health. Paul Farmer and his PIH colleagues have twice changed World Health Organization policies; they continue to have a lasting impact on the global health movement and on the lives of the poor.
