Section Three examines best practices for working well and effectively with colleagues and includes a new chapter on how to be one's best self advocate in academic settings. Following this, Section Four offers constructive guidance on key competencies for academic faculty, such as preparing book proposals, writing manuscripts, and reviewing manuscripts. Section Five discusses how to conduct empirical studies and includes a new chapter on how to approach medical education research. Section Six includes chapters on developing administrative skills, including best practices in faculty searches and how to work collaboratively with human resources.
