Aging With Hiv Psychological Social And Health Issues:

Aging with HIV Janice E. Nichols, David C. Speer, Betty J. Watson, Mary Watson, Tiffany L. Vergon, Colette M. Vallee, Joan M. Meah, 2002-09-15 In 1998 approximately 30 million people worldwide were living with HIV AIDS about 5 million of whom became infected that year The epidemic continues to expand with an estimated doubling time of 10 years making AIDS the leading infectious cause of death ahead of tuberculosis and malaria Even in the U S A where the death rate from AIDS is declining as a result of effective drug therapies HIV infection rates continue to climb in several population groups The prevalence of AIDS among people over the age of 50 is steadily increasing and most older people are unprepared to address it for a number of reasons including the widespread discomfort with matters sexual and homosexual and the belief that elderly people are not sexually active and therefore not at risk This guide for care providers seeks to educate and inform readers about the difficulties and complications that accompany the disease in older people Thus while the appendix includes technical descriptions of methodology data and results the narratives in the chapters describing the findings and their practical implications are written in layman's language Topics covered include biomedical aspects demographics sexuality stressors mental health older women and patient care all of which are supported by case studies

Aging with HIV James Masten Ph.D., LCSW, 2010-12-01 With improvements in the treatment of HIV disease gay men in great numbers are surviving and thriving into middle and older age While increased longevity brings new hope it also raises unanticipated challenges particularly for gay men who never thought they would live this long How do I deal with all the physical changes Who can I rely on as I get older Is a relationship still in the cards for me What about sex How should I prepare for old age A one of a kind guide for gay men aging with HIV Aging with HIV offers an upbeat down to earth approach for adapting to change whether driven by age AIDS or both Psychotherapist James Masten and physician James Schmidtberger shed light on the many common assumptions and fears of aging with HIV Aging with HIV provides concrete solutions for facing midlife with a positive outlook offering a wealth of advice for breaking unhealthy habits and coping mechanisms The book describes the nine changes common to gay men as they age with HIV discusses the four challenges of aging and offers a unique ten step path to optimal aging with HIV helping the reader to tailor the book's suggestions to the realities of their lives Woven throughout the book are first person narratives from men who recount what worked and did not work for them In addition Rapid Research Fast Fact and Self Reflection boxes highlight the latest research and challenge readers to take stock of the present and plan for the future An invaluable tool to keep handy and to refer to often Aging with HIV is an inviting confident companion to navigating midlife and beyond with HIV

Handbook of Psychosocial Interventions with Older Adults Sherry M. Cummings, Nancy P. Kropf, 2013-09-13

In the past decade evidence based practice EBP has emerged as one of the most important movements to improve the effectiveness of clinical care As the number of older adults continues to grow it is essential that practitioners have knowledge of effective strategies to improve both the medical and the psychosocial aspects

of older persons lives The purpose of this work is to present systematic reviews of research based psychosocial interventions for older adults and their caregivers The interventions presented focus on a variety of critical issues facing older adults today including medical illnesses cardiac disease diabetes arthritis pain cancer and HIV AIDS mental health cognitive disorders depression anxiety dementia substance abuse and social functioning developmental disabilities end of life dementia caregivers grandparent caregivers For each of these areas the prevalence of the problem the demographics of those affected and the nature and consequences of the problem are discussed The empirical literature is then reviewed A treatment summary highlights the type and nature of research supporting the interventions reviewed and is followed by a conclusion section that summarizes the status of intervention research for the specified issue A Treatment Resource Appendix for each area is included These appendices highlight manuals books articles and web resources that detail the treatment approaches and methodologies discussed This book was previously published as a special issue of the Journal of Gerontological Social Work

The Person with HIV/AIDS Felissa R. Lashley,Jerry D. Durham,2009-09-08 This is an excellent reference for those caring for clients with HIV AIDS I strongly recommend this book Doody's HIV AIDS is no longer a certain death sentence Patients fighting the chronic symptoms of HIV AIDS are now living longer fuller lives due to recent scientific and pharmaceutical breakthroughs As a result the new generation of caregivers must keep pace with cutting edge evidence based practices to better serve patients who may live with HIV AIDS for several decades This updated edition is a vital resource for nurses and other health care professionals providing care to HIV positive persons in the 21st century The contributors present essential information on the medical assessment and management of symptoms the prevention of infection ethical and legal dimensions of care and much more With a greater emphasis on the international dimensions of the HIV pandemic and the treatment of minority populations this book serves as an essential guide for nurses and health care practitioners serving patients with HIV AIDS Key topics include HIV screening testing and counseling HIV AIDS nursing case management within the global community HIV and gay lesbian bisexual and transgender persons Children and HIV prevention and management HIV in corrections facilities and the care of incarcerated patients Sex workers and the transmission of HIV

[Elaborating the Relationship Between Age and HIV Risk Behaviors Among Illicit Drug Users](#) Michele Marie Wood,2008

Brain Degeneration and Dementia in Sub-Saharan Africa Seggane Musisi,Stanley Jacobson,2015-04-14 Stemming from a 2012 conference entitled Brain Degenerations and Emerging Mental Health Challenges in Sub-Saharan Africa this book is aimed at both the general practitioner interested in CNS disorders and the specialist who would like to know more about CNS pathology in Africa By employing a broad definition of what brain degeneration means the authors are able to touch upon everything from dementias and CNS malignancy to traumatic brain injury and CNS infective processes This book draws from and builds upon the original conference presentations and incorporates the most up to date science behind brain degeneration as well as actual case reports Each of the book's six

sections offer the reader a deeper understanding of brain degeneration as it exists in Sub Saharan Africa Sexuality, Sexual Health and Ageing Merryn Gott, 2005 This text integrates theoretical insights into sexuality sexual health and ageing with research findings from studies conducted with older people and the professionals that work with them Biomedical Index to PHS-supported Research, 1990 Internationale Bibliographie der Rezensionen wissenschaftlicher Literatur, 2003

Health Issues in the Caribbean Owen Morgan, 2005 Improvements in public health have transformed the conditions of life in the English speaking Caribbean to the extent that infectious diseases maternal and infant mortality and childhood diseases have all decreased significantly This volume draws on the experience of not only health practitioners but also key individuals from several disciplines such as educators political leaders and bankers in an attempt to find solutions to many of the complex health issues facing the region Health issues in the Caribbean analyses and offers direction for public health practice in the twenty first century It examines a wide range of health problems facing the region and provides new ideas on health care delivery and possible directions for the future **BOOK JACKET Aging and Adult Development in the Developing World** Frank E. With the development of effective antiretroviral therapies ART in the mid 1990s HIV became a treatable although serious condition and people who are adherent to HIV medications can attain normal or near normal life expectancies Because of the success of ART people 50 and older now make up a majority of people with HIV in high income countries and other places where ART is accessible The aging of the HIV epidemic is a global trend that is also being observed in low and middle income countries including countries in sub Saharan Africa where the greatest number of older people with HIV reside 3.7 million While globally over half of older adults with HIV are in sub Saharan Africa we have little information about the circumstances needs and resiliencies of this population which limits our ability to craft effective policy and programmatic responses to aging with HIV in this region At present our understanding of HIV and aging is dominated by information from the US and Western Europe where the epidemiology of HIV and the infrastructure to provide social care are markedly different than in sub Saharan Africa Aging with HIV in Sub Saharan Africa addresses this gap in our knowledge by providing current research and perspectives on a range of health and psychosocial topics concerning these older adults from across this region This volume provides a unique and timely overview of growing older with HIV in a sub Saharan African context covering such topics as epidemiology health and functioning and social support as well as policy and program implications to support those growing older with HIV There are very few published volumes that address HIV and aging and this is the first book to consider HIV and aging in sub Saharan Africa Most publications in this area focus on HIV and aging in Uganda and South Africa This volume broadens the scope with contributions from authors working in West Africa Botswana and Kenya The range of topics covered here will be useful to professionals in a range of disciplines including psychology epidemiology gerontology sociology
