1. Ms. Moore plans to retire when she turns 65 in a few months. She is in excellent health and will have considerable income when she retires. She is concerned that her income will make it impossible for her to qualify for Medicare. What could you tell her to address her concern?
  - ★ Medicare is a program for people age 65 or older and those under age 65 with certain disabilities, end-stage renal disease, and Lou Gehrig's disease so she will be eligible for Medicare.
2. Mrs. Chen will be 65 soon, has been a citizen for twelve years, has been employed full time, and paid taxes during that entire period. She is concerned that she will not qualify for coverage under part A because she was not born in the United States. What should you tell her?
  - ★ Most individuals who are citizens and age 65 or over are covered under Part A by virtue of having paid Medicare taxes while working, though some may be covered as a result of paying monthly premiums.
3. Mr. Patel is in good health and is preparing a budget in anticipation of his retirement when he turns 66. He wants to understand the health care costs he might be exposed to under Medicare if he were to require hospitalization as a result of an illness. In general terms, what could you tell him about his costs for inpatient hospital services under Original Medicare?
  - ★ Under Original Medicare, there is a single deductible amount due for the first 60 days of any inpatient hospital stay, after which it converts into a per-day coinsurance amount through day 90. After day 90, he would pay a daily amount up to 60 days over his lifetime, after which he would be responsible for all costs.
4. Mrs. Park is an elderly retiree. Mrs. Park has a low fixed income. What could you tell Mrs. Park that might be of assistance?
