#### WARNING

When you leave the vehicle, always remove the ignition key and take it with you. This will prevent passengers (children, for example) from accidentally being locked in the vehicle should they accidentally press the power locking switch.

#### WARNING

When you lock your vehicle from the outside, do not leave anyone - especially children - inside the vehicle. Remember, when you lock the vehicle from the outside the windows cannot be opened from the inside.

#### WARNING

Do not leave children inside the vehicle unsupervised. In an emergency it would be impossible to open the doors from the outside without the key.

### Refueling

Press the button in the driver's door to open the fuel filler flap.  
The recommended fuel grades are indicated

The power locking system locks and unlocks both doors. It can be operated with the remote control or the key.

- 4 Folding the key out: Press the button.
