Nurse Educator's Guide to Best Teaching Practice Keeley C. Harmon, Joe Ann Clark, Jeffery M. Dyck, Vicki Moran, 2016-09-07 This book presents essential teaching skills and tools for nurse educators. It begins with a discussion of the trends in nursing education and the principles of teaching and learning. The book then explores topics such as classroom teaching, clinical experiences, teaching in the simulation laboratory, and online learning. Each chapter discusses the basics of teaching and learning in the specific environment, followed by scenarios that focus on the issues encountered by nursing faculty in these settings. The scenarios present the key issues under consideration, recommend actions that faculty members can institute to address the issues, and describe rationales and solutions based on best evidence. The book also includes specific tools designed to assist nurse educators in preparation for the teaching role, such as examples of course syllabi, program outcomes, clinical contracts, and action plans. **Nurse Educator's Guide to Best Teaching Practice** is a valuable resource for novice and experienced educators in managing the challenges inherent in nursing education. **TEAS Nursing Study Guide** Miller Test Prep, 2019-10-03 **ATI TEAS Prep Plus** Kaplan Nursing, 2019-09-03 Kaplan's ATI TEAS Prep Plus provides comprehensive content review, realistic practice, and expert advice to help you face the test with confidence and get into the school of your choice. Our study guides are carefully designed to provide only that clear and concise information you need. That's precisely why we put "Clear Concise" on our cover. The standard for the study guide industry is to throw in the kitchen sink when it comes to making a book, meaning you are stuck with hundreds of pages of repetitive information, redundant and confusing examples, and more practice questions than any person could be expected to work through. This results in students feeling overwhelmed, leading to reduced self-confidence, which leads to lower scores. Instead, Miller Test Prep has worked specifically with tutors. Why? Tutors you ask. Tutors specialize in helping students comprehend information that has already been presented by a teacher. That means they see time and again what students struggle with and what actually works to help them. They specialize in helping
