Castello, Carla Scilabra, 2020-10-15 The collected essays in this volume focus on the presentation representation and interpretation of ancient violence from war to slavery rape and murder in the modern visual and performing arts with special attention to videogames and dance as well as the more usual media of film literature and theatre Violence fury and the dread that they provoke are factors that appear frequently in the ancient sources The dark side of antiquity so distant from the ideal of purity and harmony that the classical heritage until recently usually called forth has repeatedly struck the imagination of artists writers and scholars across ages and cultures A global assembly of contributors from Europe to Brazil

and from the US to New Zealand consider historical and mythical violence in Stanley Kubrick's *Spartacus* and the 2010 TV series of the same name in Ridley Scott's *Gladiator* in the work of Lars von Trier and in Soviet ballet and the choreography of Martha Graham and Anita Berber. Representations of Roman warfare appear in videogames such as *Ryse: Son of Rome* and *Total War* as well as recent comics and examples from both these media are analysed in the volume. Finally interviews with two artists offer insight into the ways in which practitioners understand and engage with the complex reception of these themes.

Tiempos trastornados Mieke Bal, 2020-10-26. Tras una introducción en la que la autora realiza un repaso a su trayectoria intelectual y a los temas esenciales del análisis visual, el libro ofrece por primera vez en lengua castellana algunas de las intervenciones más relevantes de la producción de Mieke Bal, llegando hasta los textos más recientes sobre los ensayos visuales, el análisis fílmico y el trabajo de comisariado. En cierta manera es un mapa de los diferentes conceptos y problemas que han preocupado a Bal durante su larga carrera profesional, así como de cuestiones centrales del análisis cultural y los estudios visuales. El libro se divide en cuatro grandes partes que analizan el estatus de las imágenes y las metodologías de estudio, así como algunos desarrollos de la cultura visual y la cultura expositiva. La primera se centra en el estatus del análisis visual en la actualidad. Tras plantear su pertenencia a la disciplina de la historia del arte, Bal intenta desarrollar una metodología capaz de dar cuenta de la problemática de las imágenes y lo visual. A través de intervenciones teóricas y de análisis de obras de arte se plantean cuestiones clave de metodología como el esencialismo visual, la temporalidad, el concepto de preposterous o la política de la representación, especialmente desde las lecturas de Rembrandt y el *g* *nero*. La segunda está centrada en el tiempo y en el modo en el que los artistas plantean a través de su obra ejercicios de análisis cultural. La tercera plantea una visión particular del arte político, más allá del realismo, el activismo y la representación temática. Es lo sensible, lo estético, los afectos y las emociones lo central en el desarrollo de un arte político. En la cuarta reflexiona sobre su labor como artista y comisaria a través de tres ensayos sobre el arte de mostrar y el discurso de la exposición y el museo. Por último, en la pequeña conclusión, la práctica del análisis visual muestra la necesidad del análisis visual en el mundo contemporáneo.
