## **Apple Store Downtown Portland:**

**Emotion By Design** Greg Hoffman, 2022-04-05 Innovative strategies for success from former Nike CMO Greg Hoffman who had a major hand in crafting Nike's singular brand and was instrumental in its most high profile breakthrough campaigns. In **EMOTION BY DESIGN** Hoffman shares lessons and stories on the power of creativity drawn from almost three decades of experience within Nike. A celebration of ingenuity and a call to arms for brand builders to rediscover the human element in forming consumer bonds. **EMOTION BY DESIGN** is an insider's guide to unlocking inspiration within a brand and building stronger emotional connections with consumers using Hoffman's three favorite guiding principles: Creativity is a Team Sport, Dare to be Remembered, Leave a Legacy, Not Just a Memory. Over the course of a twenty seven year Nike career from intern to Chief Marketing Officer, Hoffman led teams in shaping and expressing Nike's brand voice and identity through storytelling and experiences. Every story was distinct yet the result was always the same: a strong emotional attachment between products and people, quite literally emotion by design. With fascinating stories about Nike's most famous campaigns, **EMOTION BY DESIGN** shares Hoffman's philosophy and principles on how to create an empowering brand that resonates deeply with people by unlocking the creativity within your organization and unleashing it out into the world.

*Ethics and Race* Naomi Zack, 2022-08-18 This dynamic new text for ethics and philosophy of race courses brings together subjects philosophers have generally kept separate: ethics and race. But every issue concerning race is an ethical issue and it's time we studied them as such. Naomi Zack introduces students to historical and contemporary issues of race and racism and provides an ethical foundation for students to critically engage with these issues in the classroom and in their lives. The chapters discuss affirmative action and diversity, current protests from across the political spectrum, police killings, the relevance of race to the effects of disasters and climate change, white privilege as a cause for political impasse, racial identity including mixed race identities, race and gender, and media representations of race. While treating issues of race as moral subjects with suggested moral foundations, Zack does not lead the student to specific conclusions. Rather, through thought discussion and writing questions, students learn to construct their own chains of reasonings based on explicit moral foundations. The book features Up to date social and biological scientific findings, Hot button current issues, discussion questions and writing prompts, further reading lists and video resources, a comprehensive glossary, international examples to supplement US based discussion.
