evaluation In a third step the current prosecutorial strategy structural investigations and its theory as well as practice will be analysed to assess how the use of structural investigations changes the evaluation of the reasons underlying the restrictive practice The aim is to answer the research question To what extent structural investigations as the current German prosecutorial strategy used to investigate Crimes of International Law in Syria operate on the interplay between the prosecutorial discretion 153f CCP and the codified universal jurisdiction 1 CCAIL to be applied in a proactive global enforcer manner
