Bbc News Zac Goldsmith:

The UK's Changing Democracy Patrick Dunleavy, Alice Park, Ros Taylor, 2018-11-01 The UK's Changing Democracy presents a uniquely democratic perspective on all aspects of UK politics at the centre in Westminster and Whitehall and in all the devolved nations. The 2016 referendum vote to leave the EU marked a turning point in the UK's political system. In the previous two decades the country had undergone a series of democratic reforms during which it seemed to evolve into a more typical European liberal democracy. The establishment of a Supreme Court, adoption of the Human Rights Act, Scottish, Welsh and Northern Irish devolution, proportional electoral systems, executive mayors and the growth in multi-party competition all marked profound changes to the British political tradition. Brexit may now bring some of these developments to a juddering halt. The UK's previous exceptionalism from European patterns looks certain to continue indefinitely. Taking back control of regulations, trade, immigration and much more is the biggest change in UK governance for half a century. It has already produced enduring crises for the party system, Parliament and the core executive with uniquely contested governance over critical issues and a rapidly changing political landscape. Other recent trends are no less fast moving such as the revival of two-party dominance in England, the re-creation of some mass membership parties and the disruptive challenges of social media. In this context an in-depth assessment of the quality of the UK's democracy is essential. Each of the 2018 Democratic Audit's 37 short chapters starts with clear criteria for what democracy requires in that part of the nation's political life and outlines key recent developments before a SWOT analysis of strengths, weaknesses, opportunities and threats crystallises the current situation. A small number of core issues are then explored in more depth. Set against the global rise of debased semi-democracies, the book's approach returns our focus firmly to the big issues around the quality and sustainability of the UK's liberal democracy.

When Green Growth Is Not Enough Anders Hayden, 2014-11-20

A systematic and thorough comparison between Canada's and Britain's actions on climate change. *The New Working Class* Ainsley, Claire, 2018-10-31 Recent events such as the Brexit vote and the 2017 general election result highlight the erosion of traditional class identities and the decoupling of class from political identity. The majority of people in the UK still identify as working class yet no political party today can confidently articulate their interests. So who is now working class and how do political parties gain their support? Based on the opinions and voices of lower and middle income voters this insightful book proposes what needs to be done to address the issues of the new working class. Outlining the composition, values and attitudes of the new working class it provides practical recommendations for political parties to reconnect with the electorate and regain trust.

Hindu Nationalism in the Indian Diaspora Edward T.G. Anderson, 2024-01-01

Explores the remarkable rise and influence of Hindu nationalism in Britain and beyond. *Plane Truth* Rose Bridger, 2013-10-09 As aviation is celebrated as one of the world's fastest growing industries with passenger numbers and cargo volumes projected to double in the next 20 years, *Plane Truth* sounds a note of caution. In addition to the environmental impact of airport

expansion devouring farmland and wildlife habitats and aviation's impact of noise and air pollution on communities Rose Bridger reveals the extraordinary government subsidies for the aviation industry encompassing government expenditure on infrastructure to tax breaks all of which serve to support the industry in the face of rising oil prices and global economic downturn Disavowing greenwashing claims of fuel efficient aircraft and alternative fuels that will enable growth without climate change from British Airways to American Airlines the symbiotic relationship between aviation and the wider socio economic problems facing humanity is manifest [BBC Wildlife](#) ,2007 [The Ecologist](#) ,2005 [Muslim Masculinities](#)
