Rhetoric, Race, Religion, and the Charleston Shootings Melody Lehn, Sean Patrick O'Rourke, 2019-11-12 Rhetoric Race Religion and the Charleston Shootings Was Blind but Now I See is a collection focusing on the Charleston shootings written by leading scholars in the field who consider the rhetoric surrounding the shootings This book offers an appraisal of the discourses speeches editorials social media posts visual images prayers songs silence demonstrations and protests that constituted contested and reconstituted the shootings in American civic life and cultural memory It answers recent calls for local and regional studies and opens new fields of inquiry in the rhetoric sociology and history of mass killings gun violence and race relations and it does so while forging new connections between and among on going scholarly conversations about rhetoric race and religion Contributors argue that Charleston was different from other mass shootings in America and that this difference was made manifest through what was spoken and unspoken in its rhetorical aftermath Scholars of race religion rhetoric communication and sociology will find this book particularly useful *College in the Crosshairs* Brian O. Hemphill, Brandi Hepner LaBanc, 2023-07-03 Gun violence whether rampage shootings homicides or suicides is a potential reality all campuses have to face This book provides leaders in higher education and particularly those in student affairs with data about past incidents an analysis of trends and background on the national debate about gun policies and how they impact colleges state by state It importantly raises issues about student psychological development mental health and the prevalence of alcohol and substance abuse on campus to better inform discussion about allowing guns on campus and concealed carry It concludes by sharing strategies for averting gun related tragedies and offering models for responding when they occur based on lessons learned and best practices The book addresses concealed carry legislation and its impact on campus policies by state examining the concerns of administrators as they discharge their duty of care to students and comply with legal and regulatory frameworks Asking Are our students developmentally ready to make a morally sophisticated life changing decision to use firearms in response to a real or perceived threat it offers important perspectives and scientific data so far absent from the debate to shape the ongoing conversation with lawmakers and the public about what it takes to keep college communities safe In addressing risk and prevention contributors cover the relationship between violence and mental health and the need to establish comprehensive strategic plans and a preventative framework that promotes help seeking for those in need before they reach the point of crisis as well as a campus wide risk assessment team stressing the importance of cultivating a community wide approach to campus safety by empowering members to report suspicious behavior They also offer guidance on improving effective behavior intervention and case management processes The book concludes by outlining best practices and providing guidance on developing an emergency plan practicing and testing systems and creating a robust communications strategy Individual chapters focus on how small colleges with limited resources can develop effective plans into by partnering with local agencies as well as on the steps that community colleges

who generally lack resident advisors and residential staff and whose students are far more dispersed can take to diminish risk and respond promptly and professionally to a crisis This is an essential guide for all higher education leaders concerned about preventing violence on our campuses and a call to action **Handbook of Research on Mass Shootings and**

Multiple Victim Violence Crews, Gordon A.,2019-10-25 The phenomena of mass shootings appear to be on the rise Within the past decade shootings have occurred in schools religious institutions concerts movie theaters and other public venues as well as at home in the form of domestic mass shootings This phenomenon is influenced by factors such as access to guns mental illness the desire for fame revenge from being bullied and copycat killing to name a few Mass shootings are a serious problem for society and must be explored further in order to provide preventive solutions The Handbook of Research on Mass Shootings and Multiple Victim Violence is a pivotal reference source that provides vital research on contributing factors to gun violence characteristics of shooters and victims solutions for preventing incidents from occurring and the impact these shootings have on the community While highlighting topics such as school safety cyberbullying and mental illness this publication is ideally designed for law enforcement government officials psychologists psychiatrists sociologists politicians policymakers law makers academicians researchers and students seeking current research on the latest empirical findings of mass shootings in the United States Mass Shootings and Civilian Armament Alexei Anisin,2021-11-18 Mass Shootings and Civilian Armament provides the first comprehensive multi methodological analysis of the relationship between mass shootings and firearm purchases as proxied by background checks in the US on national level data from 1999 2020 Since 1994 the number of civilian owned firearms in the US has doubled to around 398 million while the population only grew by 70 million On average mass shootings have occurred once every two weeks over the last decade which is a major factor

behind why social scientists have started to ask whether mass shootings play a causative role in civilian decisions to purchase guns Utilizing a multi methodological approach featuring quantitative comparative configurational and qualitative methods this book puts forward a theoretical framework and argues that mass shootings do increase civilian armament but that this repetitious effect is historically contingent asymmetric and non linear Particular types of mass shootings are hypothesized to have driven and continue to bring about increased levels of civilian firearm purchases through different pathways and combinations of variables those that feature high fatality counts arise in areas of cultural importance are ideologically motivated First inquiry into background check data 1999 2020 and data on 213 mass shootings and attempted mass shootings is carried out to find out which shootings as well as controls are significantly correlated with background check increases Second the findings are utilized in a theoretically driven comparative configurational assessment to test if the noted theoretical pathways are associated with the outcome of increased post shooting armament Third the empirical analyses are complimented by three case studies the 2011 Gabrielle Giffords shooting illustrative of the high fatality pathway the 2012 Colorado movie theater shooting illustrative of the cultural pathway and the 2015 Charleston Church shooting

illustrative of the ideologically driven pathway Interdisciplinary in nature Mass Shootings and Civilian Armament will not only be of great interest to scholars of Criminology but will also speak to sociologists economists public policy scholars political scientists historians as well as cultural studies and American studies scholars **Black Baseball, 1858-1900**
James E. Brunson III, 2019-04-22 This is one of the most important baseball books to be published in a long time taking a comprehensive look at black participation in the national pastime from 1858 through 1900 It provides team rosters and team histories player biographies a list of umpires and games they officiated and information on team managers and team secretaries Well known organizations like the Washington s Mutuals Philadelphia Pythians Chicago Uniques St Louis Black Stockings Cuban Giants and Chicago Unions are documented as well as lesser known teams like the Wilmington Mutuals Newton Black Stockings San Francisco Enterprise Dallas Black Stockings Galveston Flyaways Louisville Brotherhoods and Helena Pastimes Player biographies trace their connections between teams across the country Essays frame the biographies discussing the social and cultural events that shaped black baseball Waiters and barbers formed the earliest organized clubs and developed local regional and national circuits Some players belonged to both white and colored clubs and some umpires officiated colored white and interracial matches High schools nurtured young players and transformed them into powerhouse teams like Cincinnati s Vigilant Base Ball Club A special essay covers visual representations of black baseball and the artists who created them including colored artists of color who were also baseballists **Gaming Empire in Children's British Board Games, 1836-1860** Megan A. Norcia, 2019-03-25 Over a century before Monopoly invited child players to bankrupt one another with merry ruthlessness a lively and profitable board game industry thrived in Britain from the 1750s onward thanks to publishers like John Wallis John Betts and William Spooner As part of the new wave of materials catering to the developing mass market of child consumers the games steadily acquainted future upper and middle class empire builders even the royal family themselves with the strategies of imperial rule cultivating trading engaging in conflict displaying and competing In their parlors these players learned the techniques of successful colonial management by playing games such as Spooner s A Voyage of Discovery or Betts A Tour of the British Colonies and Foreign Possessions These games shaped ideologies about nation race and imperial duty challenging the portrait of Britons as absent minded imperialists Considered on a continuum with children s geography primers and adventure tales these games offer a new way to historicize the Victorians Britain and Empire itself The archival research conducted here illustrates the changing disciplinary landscape of children s literature culture studies as well as nineteenth century imperial studies by situating the games at the intersection of material and literary culture *Beyond Columbine* Julie A. Webber, 2017 NOW IN PAPERBACK School violence has become our new American horror story but it also has its roots in the way it comments on western values with respect to violence shame mental illness suicide humanity and the virtual Beyond Columbine School Violence and the Virtual offers a series of readings of school shooting episodes in the United States as well as similar cases in Finland Germany and Norway

among others and their relatedness The book expands the author's central premise from her earlier book *Failure to Hold* which explores the hidden curriculum of American culture that is rooted in perceived inequality and the shame rage and violence that it provokes In doing so it goes further to explore the United States outdated perceptual apparatus based on a reflective liberal ideology and presents a new argument about proprioception the combined effect of a sustained lack of thought non cognitive in action that is engendered by digital media and virtual culture The present interpretation of the virtual is not limited to video games but encompasses the entire perceptual field of information sharing and media stylization e g social networking television and branding More specifically American culture has immersed itself so thoroughly in a digital world that its violence and responses to violence lack reflection to the point where it confuses data with certainty School related violence is presented as a dramatic series of events with Columbine as its pilot episode

Marill,2005 **Vampire State** Ian Williams,2024-09-05 This is the terrifying story of China's vampire economy State capitalism Socialism with Chinese characteristics A socialist market economy There have been numerous descriptions of the Chinese economy However none seems to capture the predatory at times surreal nature of the economy of the world's most populous nation nor the often bruising and mind bending experience of doing business with the Middle Kingdom Rules and agreements mean little Markets are distorted statistics fabricated foreign industrial secrets and technology systematically stolen Companies and entrepreneurs at home and abroad are bullied often with the collusion of the victims themselves The Party is in every boardroom and lab with businesses thriving or dying at its will All this is part of realising President Xi Jinping's ambition of China becoming the world's pre eminent economic technological and military power One of the Financial Times Best New Books on Economics in 2024 **London Calling** ,1947 **Listener and BBC Television Review** ,1988-05 **Book News** ,1898 **From Suez to Shanghai** James Rogers,2009 This paper provides an initial foray into the emerging geopolitical situation in the Eurasian coastal zone and concentrates on the geostrategic activities of China India Japan Russia South Korea and the United States This comes at a time when geopolitics has been largely neglected at the European level the geographic dimension of European foreign and security policy has remained heavily entwined with the security and prosperity of the European Neighbourhood and parts of Africa While the European Neighbourhood particularly should not be neglected Europeans will have to develop and pursue a far more assertive and integrated grand strategy in the years ahead This paper has therefore identified the coastal zone stretching from the Suez Canal to the city of Shanghai and perhaps as far as Seoul as the most likely region to experience great power competition and general disorder over the coming decades What is more this coastal zone is of critical importance to the European Union not least because it is Europe's most important shipping route for manufactured goods and energy supplies The paper begins by examining the established and nascent maritime geostrategies of the Eurasian great powers and the potential

consequences the new geopolitics might have for the European Union It then looks at European interests in the Suez to Shanghai zone and focuses on the role of geography in the region It also emphasises the likely challenges emanating from Chinese Indian Russian and American maritime competition The final section argues that as the relative balance of power between Europeans and other Eurasian powers shifts over the coming decades the European Union should provide a strong vehicle for the realisation of common European objectives ranging from the maintenance of the peace to building up European naval logistical and geopolitical capabilities **The Listener and BBC Television Review** ,1966
