*Racism and the Tory Party* Mike Cole,2022-12-30 Racism is an endemic feature of the Tory Party Tracing the history of that racism Racism and the Tory Party investigates the changing forms of racism in the party from the days of Empire including the championing of imperialism at the turn of the 20th century and the ramping up of antisemitism the imperial and racial politics of Winston Churchill the rise of Enoch Powell and Powellism to the Margaret Thatcher years the birth of racecraft and her policies in Northern Ireland and the hostile environment and its consolidation and expansion under Theresa May and Boris Johnson's premierships Throughout the book all forms of racism are addressed including the various forms of colour coded and as well as non colour coded racism as they are put in their historical and economic contexts This book should be of relevance to all interested in British politics and British history as well as undergraduate and postgraduate students studying the sociology and politics of racism as well as for students of the history of the development of British racism and of imperialism and its aftermath

[English nationalism, Brexit and the Anglosphere](#) Ben Wellings,2019-05-23 This is the first book to examine the relationship between English nationalism Brexit and the Anglosphere a politically contested term used to denote English speaking countries sharing cultural and historical roots with the UK In the aftermath of the UK's EU referendum some pointed to a revolt of those left behind by globalisation Ben Wellings argues instead that Brexit was and is an elite project firmly situated within the tradition of an expansive English

nationalism Far from being parochial Little Englanders elite Brexiteers sought to replace the European Union with trade and security alliances between true friends and traditional allies in the Anglosphere Brexit was thus reassuringly presented as a giant leap into the known As the UK s future relationship with the rest of the world is negotiated the need to understand this English moment has never been more pressing

**A Nation in Crisis** Neville Kirk,2023-10-05 Since the 2007 8 financial crisis and its aftershocks international capitalism has once again been in crisis The crisis has been particularly marked in the UK and its outcome is currently unclear Based upon a wealth of sources from newspapers journals government political party and polling organisation publications as well as archival and secondary material Neville Kirk examines the systemic crisis facing the nations of the UK The book traces the crisis from the period following the 2016 EU referendum up to 2022 a period during which the crisis intensified and became more widespread Kirk covers the elections of 2017 and 2019 political fragmentation Scottish nationalism Brexit the coronavirus pandemic continuing economic problems and conflicts around class gender race and nation Finally the book considers competing pathways out of the current impasse Through his thorough examination of the UK s main political parties and players Kirk offers the reader a new and original understanding of how we reached the present situation

**Brexit and the Northern Ireland Constitution** Lisa Claire

Whitten,2023-11-27 Brexit and the Northern Ireland Constitution considers the intersection of two processes the complex and constitutional process of the United Kingdom s withdrawal from the European Union Brexit and the steady yet fragile development of the Northern Ireland constitution deriving primarily from the Belfast Good Friday Agreement of 1998 Interdisciplinary in approach the analysis draws on legal and political theory to develop a novel framework for assessing the progressive impact of Brexit on the Northern Ireland constitution based on systematic definitions of both This approach elucidates dynamics and implications not yet considered in the otherwise extensive debates about Brexit and its impacts on Northern Ireland Based on detailed analysis of the Brexit process it is argued that its impact on the constitution of Northern Ireland has been profound Fundamentally Brexit changed the political and legal environment in which the Northern Ireland constitution had existed for over twenty years Embracing constructive ambiguity the 1998 Agreement recognises and accommodates the concerns of both unionists and nationalists in Northern Ireland it did not therefore solve the constitutional conflict but rather allowed it to be managed differently through an innovative system of multileveled governance within Northern Ireland power sharing devolution on the island of Ireland North South cooperation and between the islands of Great Britain and Ireland East West cooperation all underpinned by a multifaceted principle of constitutional popular and cross community consent By forcing a paradigmatic shift in the way that the systems of government established by the 1998 Agreement operate Brexit disrupted the constructively ambiguous compromise that it represents Completed two years after the legal implementation of UK withdrawal from the EU Whitten concludes by considering the potential longer term constitutional repercussions of Brexit both within and beyond Northern Ireland s recently notorious borders

**Kingdom EU Referendum Act of 2015. Reasons and whether the benefits of the UK leaving the EU outweigh the disadvantages** David Kirchbach, 2021-10-07 Research Paper undergraduate from the year 2016 in the subject Politics Topic European Union grade 15 language English abstract This paper will research the reasons for the result of the referendum with a focus on the influence of mass media and whether the benefits of the United Kingdom leaving the European Union outweigh the disadvantages of leaving against the background of the consequences that might follow with the decision of the UK After the Second World War ended in 1945 many cities towns and villages across Europe were completely destroyed by aerial bombing and heavy artillery which led all in all to a huge suffering of the citizens all over Europe A common expression after 1945 was Never again symbolising the desire to prevent another world war and such a devastation all over the globe but also especially in Europe To make this idea come true the six European countries Belgium France Germany Italy Luxembourg and the Netherlands founded the European Coal and Steel Community in 1950 which was the beginning of a growing supranational confederation later becoming the guarantee of peace between the European countries on their own continent today known as European Union Back in 1973 when the European Communities still was in its initial stage the United Kingdom containing of England Wales Scotland and Northern Ireland officially joined the EC raising the number of member states to nine The European Union has since then changed a lot allowing not only goods to be transported inside the EU without customs costs but also allowing the citizens of the member states to move around without any border restrictions Despite these and further advantages many inhabitants of the UK felt uncomfortable with the EU charging billions of pounds a year for imposing too many rules and restrictions on the UK's business which is not worth the benefits in their opinion In addition many citizens shared the opinion that the UK should take back full control of its borders and reduce the number of immigrants on their island Consequently David Cameron the Prime Minister of the UK introduced the EU Referendum Act in 2015 which included a plebiscite to decide whether the UK will stay in the European Union or not The vote itself took place on the 23rd June 2016 in the United Kingdom having had the result of about 52% of the voters having voted to leave the European Union forming the absolute majority

**The Foreign Policy Discourse in the United Kingdom and the United States in the New World Order** Lori Maguire, 2009 The goal of this book is to examine some of the major foreign policy debates in the United Kingdom and the United States in the period from 1992 to 2008 from the end of the Cold War and the aftermath of the first Gulf War to the 2008 American presidential election The first President Bush spoke in 1991 of a new world order which seemed to mean an American hegemony The United States was now the world's only superpower although a superpower afflicted with weaknesses especially economic ones But by 2008 the new world order did not seem so new or so strongly American The period saw the terrorist attacks against the US of 11 September 2001 military problems for the superpower in Afghanistan and Iraq and by the summer of 2008 near economic collapse In all of these developments Britain shared to a lesser or a greater extent It is hoped that this book will shed an important light both

on each nation and on the so called oespecial relationship between the two Furthermore this book is also not specifically concerned with policy or how policy is made but with the debate around policy and the rhetoric used to present different points of view oeThe Special Relationship TM between the US and Britain remains an enigmatic ever changing but still very powerful factor in world politics As an examination of their foreign policy discourses reveals from the perspective of culture and values few Western countries are as different as the United Kingdom and the US With very few exceptions the foreign policies of Gladstone and Tony Blair and Chruchillian rhetoric unmatched by his supremely realpolitical politics British governments abhor talking about values and ideals The British cultural peculiarity is to dismiss ideology and values as packaging only to be caught by surprise time and again that they cannot do oebusiness with Herr Hitler or that people kill each other for their values religions constructed identities and ideologies Most American governments by contrast have had ideological and moral crusades embroidered on their banners in their foreign policy There is a convergence with Britain when both proclaim that all they are doing is in their self interest but the Americans unashamedly assume that what is good for America is good for the world while the British discourse with the UK TM s decline since 1945 rarely goes that far As an analysis of their discourses reveals the Special Relationship TM is thus clearly founded on something either deeper or more superficial than shared culture or values this volume sheds light on this surprising fact in most illuminating ways and Lori Maguire TM s achievement in bringing together these examinations is praiseworthy indeed Prof Beatrice Heuser University of Reading
