## **Bbc News Yemen Timeline:**

We Visit Yemen Claire O'Neal, 2012 Welcome to Yemen where history comes alive Its capital Sana'a is the oldest continually inhabited city in the world The Queen of Sheba made her palace in the ruins of Marib building a wealthy kingdom from the trade of native grown frankincense and myrrh The mysterious island of Socotra is home to plants that grow nowhere else in the world like the exotic Dragon's Blood tree In this traditional Islamic country women protect their modesty with the head to toe black abaya while men wear a ceremonial dagger the jambiya at their belt Isolated by jagged mountains atop the Roof of Arabia Yemen's tribal and traditional ways have stood the test of time What happens when modern issues oil the dwindling water supply women's rights Islamic terrorism try to climb in

**Amnesty, Human Rights and Political Transitions** Louise Mallinder, 2008-09-10 Amnesty laws are political tools used since ancient times by states wishing to quell dissent introduce reforms or achieve peaceful relationships with their enemies In recent years they have become contentious due to a perception that they violate international law particularly the rights of victims and contribute to further violence This view is disputed by political negotiators who often argue that amnesty is a necessary price to pay in order to achieve a stable peaceful and equitable system of government This book aims to investigate whether an amnesty necessarily entails a violation of a state's international obligations or whether an amnesty accompanied by alternative justice mechanisms can in fact contribute positively to both peace and justice This study began by constructing an extensive Amnesty Law Database that contains information on 506 amnesty processes in 130 countries introduced since the Second World War The database and chapter structure were designed to correspond with the key aspects of an amnesty why it was introduced who benefited from its protection which crimes it covered and whether it was conditional In assessing conditional amnesties related transitional justice processes such as selective prosecutions truth commissions community based justice mechanisms lustration and reparations programmes were considered Subsequently the jurisprudence relating to amnesty from national courts international tribunals and courts in third states was addressed The information gathered revealed considerable disparity in state practice relating to amnesties with some aiming to provide victims with a remedy and others seeking to create complete impunity for perpetrators To date few legal trends relating to amnesty laws are emerging although it appears that amnesties offering blanket unconditional immunity for state agents have declined Overall amnesties have increased in popularity since the 1990s and consequently rather than trying to dissuade states from using this tool of transitional justice this book argues that international actors should instead work to limit the more negative forms of amnesty by encouraging states to make them conditional and to introduce complementary programmes to repair the harm and prevent a repetition of the crimes David Dyzenhaus This is one of the best accounts in the truth and reconciliation literature I've read and certainly the best piece of work on amnesty I've seen Diane Orentlicher Ms Mallinder's ambitious project provides the kind of empirical treatment that those of us who have worked on the issue of amnesties in international law have

long awaited I have no doubt that her book will be a much valued and widely cited resource      **A Country Called Amreeka** Alia Malek,2009-10-06 Among the surfeit of narratives about Arabs that have been published in recent years surprisingly little has been reported on Arabs in America an increasingly relevant issue This book is the most powerful approach imaginable it is the story of the last forty plus years of American history told through the eyes of Arab Americans It begins in 1963 before major federal legislative changes seismically transformed the course of American immigration forever Each chapter describes an event in U S history which may already be familiar to us and invites us to live that moment in time in the skin of one Arab American The chapters follow a timeline from 1963 to the present and the characters live in every corner of this country These are dramatic narratives describing the very human experiences of love friendship family courage hate and success There are the timeless tales of an immigrant community becoming American the nostalgia for home the alienation from a society sometimes as intolerant as its laws are generous A Country Called Amreeka s snapshots allow us the complexity of its characters lives with an impassioned narrative normally found in fiction Read separately the chapters are entertaining and harrowing vignettes read together they add a new tile to the mosaic of our history We meet fellow Americans of all creeds and colors among them the Alabama football player who navigates the stringent racial mores of segregated Birmingham where a church bombing wakes a nation to the need to make America a truly more equal place the young wife from Ramallah now living in Baltimore who had to abandon her beautiful home and is now asked by a well meaning American How do you like living in an apartment after living in a tent the Detroit toughs and the potsmoking suburban teenagers who in different decades become politicized and serious about their heritage despite their own wills the homosexual man afraid to be gay in the Arab world and afraid to be Arab in America the two formidable women who wind up working for opposing campaigns in the 2000 presidential election the Marine fighting in Iraq who meets villagers who ask him What are you an Arab doing here We glimpse how America sees Arabs as much as how Arabs see America We revisit the 1973 oil embargo that initiated the American perception of all Arabs as oil rich sheikhs the 1979 Iranian hostage crisis that heralded the arrival of Middle Eastern Islam in the American consciousness bombings across three decades in Los Angeles Oklahoma City and New York City that bring terrorism to American soil and both wars in Iraq that have posed Arabs as the enemies of America In a post 9 11 world Arabic names are everywhere in America but our eyes glaze over them we sometimes don t know how to pronounce them or understand whence they come A Country Called Amreeka gives us the faces behind those names and tells the story of a community it has become essential for us to understand We can t afford to be oblivious      **An Economic History of Organized Crime** Dennis M.P. Exiting the Fragility Trap David Carment,Yiagadeesen Samy,2019-10-15 State fragility is a much debated yet underinvestigated concept in the development and international security worlds Based on years of research as part of the Country Indicators for Foreign Policy project at Carleton University Exiting the Fragility Trap marks a major step toward remedying the lack of research into the so called fragility trap In examining the nature and dynamics of state transitions in fragile contexts with a special emphasis on states that are trapped in fragility David Carment and Yiagadeesen Samy ask three questions Why do some states remain stuck in a fragility trap What lessons can we learn from those states that have successfully transitioned from fragility to stability and resilience And how can third party interventions support fragile state transitions toward resilience Carment and Samy consider fragility s evolution in three state types countries that are trapped countries that move in and out of fragility and countries that have exited fragility Large sample empirical analysis and six comparative case studies Pakistan and Yemen trapped countries Mali and Laos in and out countries and Bangladesh and Mozambique exited countries drive their investigation which breaks ground toward a new understanding of why some countries fail to see sustained progress over time
