**Bearing Witness While Black** Allissa V. Richardson, 2020 *Bearing Witness While Black* tells the story of this century s most powerful Black social movement through the eyes of 15 activists who documented it At the height of the Black Lives Matter uprisings African Americans filmed and tweeted evidence of fatal police encounters in dozens of US cities using little more than the device in their pockets Their

urgent dispatches from the frontlines spurred a global debate on excessive police force which claimed the lives of African American men women and children at disproportionate rates This groundbreaking book reveals how the perfect storm of smartphones social media and social justice empowered Black activists to create their own news outlets which continued a centuries long African American tradition of using the news to challenge racism *Bearing Witness While Black* is the first book of its kind to identify three overlapping eras of domestic terror against African American people slavery lynching and police brutality and explain how storytellers during each period documented its atrocities through journalism What results is a stunning genealogy of how the slave narratives of the 1700s inspired the Abolitionist movement how the black newspapers of the 1800s galvanized the anti lynching and Civil Rights movements and how the smartphones of today have powered the anti police brutality movement This lineage of black witnessing Allissa V Richardson argues is formidable and forever evolving Richardson s own activism as an award winning pioneer of smartphone journalism informs this text Weaving in personal accounts of her teaching in the US and Africa and of her own brushes with police brutality Richardson shares how she has inspired black youth to use mobile devices to speak up from the margins It is from this vantage point as participant observer that she urges us not to become numb to the tragic imagery that African Americans have documented Instead *Bearing Witness While Black* conveys a crucial need to protect our right to look into the forbidden space of violence against black bodies and to continue to regard the smartphone as an instrument of moral suasion and social change *Bearing Witness in Acts and Today* Troy M. Amir, 2018-10-03 *Bearing Witness to the Witness* examines the different methods of testimony given by trauma victims and the ways in which these can enrich or undermine the ability of the reader to witness them. Years of listening to both direct and indirect testimonies on trauma has led Dana Amir to identify four modes of witnessing trauma: the metaphoric mode, the metonymic mode, the excessive mode, and the Muselmann mode. In doing so, the author demonstrates the importance of testimony in understanding the nature of trauma and therefore how to respond to trauma more adequately in a clinical psychoanalytic setting. To follow these four modes of interaction with the traumatic memory, the various chapters of the book present a close reading of three genres of traumatic witnessing: literary accounts by Holocaust survivors, memoirs located between autobiographic recollection and fiction, and raw testimonies taken from Holocaust survivors. Since every traumatic testimonial narrative contains a combination of all four modes with various shifts between them, it is of crucial importance to identify the singular combination of modes that characterizes each traumatic narrative, focusing on the specific areas within which a shift occurs from one mode to another. Such a focus is extremely important as illustrated and analyzed throughout this book: to the rehabilitation of the psychic metabolic system, which conditions the digestion of traumatic materials, allowing a metaphoric working through of traumatic zones that were so far only accessible to repetition and evacuation. *Bearing Witness to the Witness* will appeal to trauma researchers of all research areas, including psychologists, psychoanalysts, literary scholars, as well as philosophers of language and philosophers of the mind. The book will also be of interest and relevance to clinical psychologists, psychoanalytic candidates, and graduate students in literary theory and criticism.

**Testimony/bearing Witness** Sybille Krämer, Sigrid Weigel, 2017. What is the epistemological value of testimony? What role does language, images, and memory play in its construction? What is the relationship between the person who attests and those who listen? Is bearing witness a concept that is exclusively based in interpersonal relations? Or are there other modes of communicating or mediating to constitute a constellation of testimony? *Testimony Bearing Witness* establishes a dialogue between the different approaches to testimony in epistemology, historiography, law, art, media studies, and psychiatry. With examples including the Holocaust, the Khmer Rouge Killing Fields, and the Armenian genocide, the volume discusses the chances and limits of communicating epistemological and ethical, philosophical, and cultural historical past and present perspectives on the phenomenon and concept of bearing witness. *Bearing Witness* Philip Rosen, Nina
