Companies should aim to eliminate non value adding activities in their operational processes Having needless waste in workflows can undermine a company's profitability potential The job of a consultant is typically to look at what an organization does as a whole then work to increase efficiency in most areas Specifically they strive to render a business more profitable usually by helping the business owners to reduce costs and grow revenue streams In order to achieve this objective the consultant might recommend personnel changes new systems alternative practices or new procedures to be implemented Companies should not only aim to bolster their operational efficiencies but should also strive to minimize their operational inefficiencies Companies not only rely on consultants to help them to enhance their operational efficiencies but to also help them to amplify their sales volume revenue and profits Freelance consultants are not limited to furnishing their service offerings to a single client Most consultants are self employed and work on a contractual basis Freelance consultants are able to work remotely customize their own schedule and furnish their service offerings to clients from around the world There are a myriad of disparate types of consultants Some of the ample disparate types of consultants encompass business consultants management consultants marketing consultants social media consultant operations consultants financial advisory consultants information technology consultants and human resource consultants Certain consultants specialize in one niche area such as retail sales Consultants might then specialize further under that area of expertise focusing on points such as inventory control personnel and reorganizing corporate structure Consultants might also work with start up companies to design the best entry into the marketplace or alternatively may work with companies that are looking to downsize and sell their companies The competencies can vary from consultant to consultant It would ultimately behoove a prospective consultant to explore the various consultant career paths *How to be a Successful Computer Consultant* Alan R.
